Welcome,

I am glad that you have picked up a copy of our catalog and are considering BMCC. We hope that you will take the next step and visit our campus to meet with our faculty, staff, and students before you make your final decision. We would be happy to show you around and explain the many benefits of attending Bay Mills Community College.

We really have the best interest of our students in mind and support our student body with free tutoring and a very economical education, which is fully accredited by the same body that accredits most of the state educational institutions. Our students have open access to the President’s office, and we offer a wide range of opportunities to improve the quality of your education.

So please call or stop in during our regular business hours and we will happily show you around or help you register.

Sincerely,

Michael C. Parish
President
Equal Opportunity Institution

Bay Mills Community College is an equal opportunity college. Discrimination on the basis of religion, race, color, national origin, age, sex, marital status, sexual orientation, disability, or any other category protected by law is prohibited.

Disclaimer

Every effort has been made to include in this publication information, which, at the time of printing, is accurate. However, the contents of this publication are not to be regarded as an irrevocable contract between the students and Bay Mills Community College.

Bay Mills Community College reserves the right to make changes in its programs, policies, rules, regulations, procedures, tuition, fees, organizational structure, faculty and staff through appropriate college process. In the event action is taken, students affected will be advised of the options available for them to complete their degrees. Reasonable effort will be made to permit students to complete their intended program or a comparable alternative.

It is the responsibility of each student to be aware of and understand Bay Mills Community College regulations as published.

GENERAL INFORMATION

Bay Mills Community College (BMCC) is located on the southeastern shore of Lake Superior, within the Bay Mills Indian Community (BMIC) in Michigan’s Upper Peninsula, approximately 17 miles west of Sault Ste. Marie. As Michigan’s first fully accredited, tribally controlled college, BMCC meets the educational needs of a wide variety of students, from its remote, rural Main Campus, West Campus, off-campus sites, and online courses. Control is vested in a Board of Regents, which elects the officers of the Board and establishes overall institutional policy. BMCC is accredited by the Higher Learning Commission of the North Central Association of Colleges and Schools (NCA) and is a member of the American Indian Higher Education Consortium (AIHEC).

BMCC is one of three tribally controlled colleges in the State of Michigan, and the only community college in Michigan’s Eastern Upper Peninsula; it is committed to providing affordable, culturally relevant, accessible, and high quality educational opportunities to all tribal communities in Michigan and their neighbors. BMCC is also committed to providing leadership in the areas of economic and community development for the Bay Mills Indian Community and the Eastern Upper Peninsula (EUP). As a 1994 Land Grant institution, BMCC works closely with land grant partners, such as Michigan State University to provide service and expertise to the Bay Mills Indian Community and the surrounding region.

Accreditation

Bay Mills Community College is accredited by The Higher Learning Commission: A Commission of the North Central Association of Colleges and Schools. In 2008, Bay Mills Community College’s accreditation was reviewed and this resulted in a recommendation for an additional 10 years. For more information regarding accreditation, contact the Higher Learning Commission, 230 South LaSalle St., Suite 7-500, Chicago, IL 60604-1411 or view their website at www.ncahlc.org.

College Memberships

- The Michigan Association of Collegiate Registrars and Admissions Officers (MACRAO)
- The American Association of Community Colleges (AACC)
- The American Council on Education (ACE)
- The American Indian Higher Education Consortium (AIHEC)
- The National Association of State Universities and Land Grant Colleges (NASULGC)

Mission and Objectives

As a tribally controlled community college and land grant institution, the mission of Bay Mills Community College is to provide quality educational opportunities, promote research, and facilitate individual development in an accessible, community-based, and culturally diverse environment that supports and maintains the Anishinaabek culture and language.

In carrying out our mission, the BMCC Board of Regents stresses a positive, student-centered atmosphere, which promotes preservation of the customs and beliefs of Native Americans. The curriculum is designed to integrate traditional Native American values with higher education as a way of preparing students to assume responsible roles in their respective communities.

The objectives of the college are

- to provide the Native American communities of Michigan with educated and trained human resources
- to provide educational opportunities, including academic, research, vocational, basic skill building, cultural and in-service programs leading to appropriate certificates, degrees, and diplomas
- to foster a spirit of pride in Native American language, culture and history through participation course work and cultural activities
- to provide a qualified, dedicated, student-centered staff and faculty
- to help students attain the necessary skills and self-esteem which will facilitate personal and career fulfillment
- to prepare and encourage all students to pursue advanced degrees
- to provide continuing and community education.
**Vision Statement**

With learning as its central mission, BMCC prepares students to become productive self-confident and responsible members of an increasingly diverse workforce by providing them with academic, technical, work and life skills needed for successful transfer into baccalaureate programs or directly into the workforce. By establishing itself as an effective partner, alongside other academic institutions, private and public sector employers, and neighboring communities, BMCC will ensure its long-term viability and positive impact on the Upper Great Lakes region. BMCC will work to ensure the viability and sustainability of the language, culture and way of life of the Anishinaabe people while promoting and emphasizing life-long learning for all students.

**Land Grant Institution**

As outlined in the federal Equity in Educational Land Grant Status Act of 1994, Bay Mills Community College received designation as a Federal Land Grant Institution. This act conferred land grant status on 29 tribal colleges and authorized the establishment of an endowment to support land grant initiatives at these colleges. Currently, there are 105 land grant colleges and universities designated by the original legislation enacted in 1862 and the subsequent 1890 and 1994 federal enactments.

Land grant institutions follow a mandate to provide openness, accessibility, and service to communities. Many land grant institutions are among the ranks of the most distinguished public research institutions.

**Alcohol/Drug Free Campus Policy**

All persons entering BMCC must comply with the Alcohol/Drug Free Campus Policy as required by Public Law 101-226, "The Drug-Free Schools and Communities Act Amendments of 1989."

No person may bring, keep or drink alcoholic beverages on college premises or at college functions. Possession of stimulants, depressants, narcotics or hallucinogenic drugs, including marijuana and other agents having potential for abuse, is strictly prohibited. Drugs prescribed by a physician must be in the original container in which they were received from the pharmacist. Any person found to be possessing, using or distributing such drugs or alcohol will be subject to disciplinary action, which could include prosecution for violation of tribal, state or federal law (See Student Conduct Code for Bay Mills Community College Substance Abuse Prevention Policy).

**Campus Safety and Security**

BMCC is committed to maintaining a safe and secure campus for its students, staff, and visitors. The college publishes an annual report, which details any crimes reported on campus. Identities of victims and suspects are not revealed in these documents. The annual crime report is available on the Bay Mills Community College website located at www.bmcc.edu.

**Students with Disabilities**

BMCC is committed to accommodating persons with disabilities. The college adheres to the standards and guidelines set forth in the Americans with Disabilities Act. Students with documented disabilities must contact the Student Services Office to receive assistance and accommodations. In addition, BMCC contracts with Michigan Rehabilitation Services to provide a broader range of services. The campus is also barrier free with accessible entrances and exits. Handicap accessible parking is available and clearly identified.

**Sexual Harassment Policy**

It is the policy of Bay Mills Community College to maintain a place of employment and education that is free of harassment in general and especially of harassment that is sexual in nature.

Sexual harassment, as summarized by the Equal Employment Opportunity Commission (E.E.O.C.), includes unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communications of a sexual nature. Anyone in violation of this policy is subject to disciplinary action and legal sanctions.
ENROLLMENT INFORMATION

Admissions

Bay Mills Community College has an open admissions policy for students of any race, creed, color, and national or ethnic origin. High school transcripts or GED scores are required of all applicants seeking admission as regular students in degree and certificate programs. Students without a high school diploma are admitted as Special Status Students. Special Status Students are required to complete their GED or high school diploma within one year.

Applicants seeking admission to special programs may be admitted without a transcript. These special programs may include, but are not limited to, skill-upgrading classes, native studies, creative arts programs, adult basic education programs, etc.

Applications for admission should be made as far in advance as possible.

Admissions Procedures

Bay Mills Community College requires the student to:

- Complete and sign application for admission, which may be obtained from Tribal Education Departments or from the Admissions Office at BMCC, and declare a program of study.

- Arrange for an official high school or GED transcript to be mailed directly from the issuing institution to BMCC’s Admissions Office. It must bear the seal of the institution and signature or stamp of the school official. Faxed copies are not accepted.

- Submit a copy of your tribal ID or verification of tribal membership from your tribal enrollment office, or Canadian certificate of Indian status, if applicable. If you are not an enrolled Tribal/Band member but one of your biological parents is a Tribal/Band member, please submit: a copy of your parents Tribal I.D. or verification of Tribal Membership from the Tribal Enrollment Clerk or a Canadian Certificate of Indian Status, and a copy of your birth certificate and your parents’ marriage license or other documentation if the tribal I.D. and birth certificate have different names.

Please note the above information must be received within the first two weeks of classes. If not received within the first two weeks, an Academic HOLD will be placed on your file. An Academic HOLD means you will NOT be allowed to register for subsequent semesters; as well as, transcripts, grade reports, financial aid checks, etc. will not be released, until this important information is received.

- All newly admitted students must schedule and complete the BMCC placement test. This test may be waived if documentation is provided of previous testing, or by college transcripts showing a “C” or better was achieved in mathematics and English courses. The results of the placement tests are used for advising purposes only and will not affect admission status. To schedule an appointment please call 1-800-844-2622, ext. 8418. Students do not need to take the placement exam if their program of study is Nishnaabemwin Pane.
**BMCC Placement Exam Policy for Returning Students**

The following applies to students who have not attended classes for one or more semesters and are now returning to BMCC.

**ENGLISH**
If your English courses were taken three (3) or more years ago, you will be required to take the English placement test. If the English course you took three (3) or more years ago was already at college level, you need to re-take the course before moving on to a next level, or consult the department chair about taking a departmental exam to update your credit.

**MATH**
Students with mathematics credit who wish to pursue further mathematics courses at BMCC may do so if their pre-requisite courses are not more than three years old. If the student’s mathematics pre-requisite courses are more than three years old the student must take the departmental exam or the math placement exam to determine eligibility for prospective mathematics course enrollment.

**COMPUTER**
If your Computer classes were taken five (5) or more years ago, and you now wish to complete a degree requiring computer science courses you will be required to take the placement exam.

**NISHNAABEMWIN PANE PROGRAM**
Students do not need to take the placement exam if their program of study is Nishnaabemwin Pane.

**Registration**
Registration at Bay Mills Community College is conducted in advance of each new semester and is advertised in most media outlets. New students are required to complete all admissions procedures and participate in placement testing prior to registration.

During the registration period, representatives from the Registrar’s Office, Financial Aid Office, Student Services Office, and all academic departments are available for consultation. During summer registration academic advisors may not be available; however, other academic staff will be available for assistance.

Students must complete the following steps in order to register for classes:

- Complete and submit all registration material provided by the Admissions Office.
- Meet with the Financial Aid Office to clarify your financial aid status.
- Meet with the Student Accounts Manager to determine the total cost of tuition and fees for which you are responsible and make arrangements for payment of such costs if not seeking financial aid.
- Meet with an assigned academic advisor or academic staff for scheduling assistance and schedule approval.

**Orientation**
All new and transfer students are encouraged to participate in orientation activities. Orientation is held on campus each semester as part of the registration process. The session features orientation to the college and an opportunity to meet other students, faculty and staff.

**Social Security Privacy Policy**
It is our policy to limit access to social security numbers to those persons who use the information in the normal course of their employment and their use shall be limited to activities permitted or required by federal law. These uses include financial transactions associated with student billing, financial aid, work study, and IRS reporting.

All other activities associated with the student’s registration grade reports, etc. will be identified through the use of the student I.D. number. This will limit the use of Social Security Numbers.
Directory Information

Bay Mills Community College considers the following items as Directory Information: student name, curricula and major field of study, participation in officially recognized activities, dates of attendance, degrees, certificates and awards received, and previous schools attended. BMCC may disclose any of these items without the student’s prior written consent. If a student doesn’t want the college to release any of the above information, they must inform the Student Services office in writing by the tenth calendar day following the start of classes each semester.

Transfer Credit(s)

Bay Mills Community College will accept transfer credits from other accredited institutions within the following guidelines:

- An evaluation will only be conducted from an official transcript. An official transcript bears the appropriate signatures and seals and is mailed directly from the issuing institution to BMCC.
- Courses completed with a “C” grade (2.0) or higher will be accepted with the exception of certain English and Computer courses. These are addressed in the following two sections.
- English Composition courses that are more than three years old will be accepted only upon the student’s successful completion of a departmental exam. Students who have attained a bachelor’s degree are exempt from the departmental exam.
- Computer Science courses that are more than three years old will be accepted only with the student’s successful completion of a departmental exam.
- Mathematics courses taken by students transferring in or returning to BMCC will be accepted and correlated to a BMCC course according to content by the Office of the Registrar. Students with mathematics credit who wish to pursue further mathematics courses at BMCC may do so if their pre-requisite courses are not more than three years old. If the student’s mathematics pre-requisite courses are more than three years old, the student must take the departmental exam or the BMCC mathematics placement exam to determine eligibility for prospective mathematics course enrollment. Students with mathematics credit three years or older are recommended to meet with the Department Chair for Mathematics for advisement.
- Courses which are not equivalent to BMCC courses but are in a discipline may be accepted as elective credits.
- Credits, not grades, are transferred for “C” or better courses. Grades from transfer courses are not included when calculating the BMCC cumulative grade point average.
- Transfer credits will be shown on the student’s academic record and will be counted when determining satisfactory academic progress for federal financial aid.
- Transfer of credit toward any certificate or degree program will be limited to 40 percent of the total number of credit hours for that program.

Guest Students

Students enrolled at another institution and planning to continue at that institution may be admitted to BMCC as guest students. Students assume full responsibility for checking to determine that the courses taken at BMCC will transfer to the program of study being pursued at their home institution.

Dual Enrollment Program

Bay Mills Community College participates in the State of Michigan’s Postsecondary Enrollment Option Act (PSEOA) by offering dual enrollment to qualified pupils that are eligible to enroll in postsecondary institutions. BMCC accepts only students in the 11th and 12th grade with a GPA of at least a 3.0 and that have been determined eligible by their school district and have met the requirements set forth in the PSEOA. Students will be restricted to a maximum of two courses per semester or not more than 8 credits per semester. Dual enrollment is not intended to replace any high school offerings and the high school superintendent/principal must sign off on the application and agree to pay the expenses for taking the course.
ACADEMIC INFORMATION

The Academic Year

Bay Mills Community College operates on a semester system. The fall semester begins the last week of August or the first week of September and is completed in December. The spring semester begins in January and ends in May. BMCC offers a limited summer schedule of accelerated summer courses, which are offered from May to August. A schedule listing hours, room numbers, and courses is published prior to each semester.

Academic Advisement

Each student enrolled at BMCC will be assigned an academic advisor who approves the students’ course loads, changes in academic studies, and helps with academic issues.

It is necessary for students to meet with an academic advisor every semester to get approval for courses to be taken. Students are strongly encouraged to check with an academic advisor during the semester to discuss their progress and any difficulties they may be encountering. Academic advisors are available to discuss and help solve any problems students may encounter in achieving their educational goals. This could result in a referral to student services for tutoring, assistive technology, or other assistance.

Assessment of Student Learning

BMCC is committed to excellence in teaching and learning and is equally committed to assessment as a means of ensuring effective student learning. Assessment is a continuous process of review and refinement at the course, program, and institutional level. Thus, faculty and administration are engaged in ongoing assessment activities that measure student learning based on specific goals and objectives. The results provide regular feedback, which is used to strengthen instructional practices and to develop strategies for improved learning. Students are invited to participate in assessment committee meetings to learn how the assessment plan works and how the results might benefit them.

Credit Load

To be considered full-time a student must carry at least 12 credits; anything less is considered part-time. One credit or one semester hour are equal to 15 contact hours of instruction. Students who wish to take more than 18 credits are required to receive permission from their academic advisor and the Vice President for Academic Affairs and to maintain a minimum grade point average of 2.7.

Academic Enrichment

BMCC has an open admission policy; however, we do require all new students to take an assessment test. This test determines the student’s current comprehension level for the tested subject areas and will determine the courses in which the student will be placed to assure their academic success. Students whose test results indicate a need for developmental course work are admitted into the Academic Enrichment Program. In general, these students will

- enroll in a reduced number of classes during the first semester
- take the necessary enrichment courses
- meet with their academic advisors on a regular basis
- make use of tutorial services
- take post tests to determine their increase in skill levels.

The Academic Enrichment Program must be completed before students may enroll in college-level courses. Academic enrichment courses may not be used to satisfy degree or certificate requirements. BMCC offers the following academic enrichment courses: Reading Comprehension & Written Communication Skills I & II, and Fundamentals of Algebra.
Departmental Examinations

Regularly enrolled students may, in some subject areas, be able to earn credit for a course offered by the college through successful completion of a Departmental Examination. Students who believe they have mastered a course through life experience or past training may, at the discretion of the Department Chair, take the departmental examination, if one has been developed, in that subject area. A fee of $50.00 per exam must be paid prior to the examination. The exam will be arranged by the Department Chair when the student presents the payment receipt for the exam.

An examination grade of 75% or better is required for credit to be earned, please check with the respective Department Chair as the minimum grade may be set higher by program. Upon successful completion of the exam the Department Chair must file the completed exam with recommendations to the Vice President of Academic Affairs and the Registrar; upon approval the course completion will be entered on the student’s transcript. A letter grade is not earned through this process and the credits are not calculated as part of the student’s GPA. A maximum of 12 credits earned by departmental exam, with a CR (credit) grade, may be applied toward an associate degree, and a maximum of 6 credits for a certificate program. Students should be advised that Departmental Examination credits may not transfer to another college or university.

Special Projects for Credit

Special projects may be assigned in the student's program of study. The program advisor will work with the student to develop a project that is of value to the student's educational or occupational goals. Special projects in any program are not necessarily the same from year to year since they are intended to meet changing conditions and demands. Program advisors, in consultation with the Vice President of Academic Affairs, determine the content and number of credits awarded for each project. Special projects for credit may be repeated. Students may not count more than six credits of special project courses towards fulfillment of the requirements of any associate degree.

Course Substitutions

Students are expected to take the required courses in the sequence prescribed in their declared program of study. Occasionally, circumstances necessitate a substitution, if this is the case, the student should consult with the academic advisor. The academic advisor will complete a course substitution form, listing the required course to be waived, the course to be substituted, and the rationale for such action. The substitution must then be approved by the Vice President of Academic Affairs and filed with the Registrar. Substitutions are not encouraged and should be considered only when absolutely necessary to fulfill degree requirements.

Students registering for math courses will not be allowed to substitute the next level math course without proving competency in the course the student wishes to replace. To prove competency a student must pass a cumulative exam (with a minimum of 80%) on the course they wish to replace. This will NOT give credit for the course; it will allow the student to move to a higher level course, the test will be administered by the Department Chair for Math.

Course Cancellations

Bay Mills Community College reserves the right to cancel any scheduled course which has insufficient enrollment.

Cancellation of Classes

Cancellation of on-campus classes due to inclement weather or other conditions will be announced by the college through area radio and television stations. Cancellation of all day classes will be announced before 7:00 a.m. Cancellation of evening classes will normally be announced before 3:00 p.m. Cancellation of off-campus classes due to inclement weather will be regulated by the specific site hosting the college course. Students should ask the instructor about the process at off-campus class sites and listen to media announcements for class cancellations. Instructors may e-mail students in the event of illness or other circumstances that prevent them from holding class. Daytime and evening on-campus class cancellations due to the absence of the instructor are posted as early in the day of the cancellation as possible. Missed class time will be made up.
Cooperative Education

Cooperative Education at BMCC integrates academic and applied sciences for the benefit of students. Students contract with a site for on-the-job experience that meets their occupational goals. The supervisor at the chosen site, a college representative, and the student confer in the development of the cooperative education contract which clearly defines the responsibilities of the site, the college, and the student. Monthly evaluations of progress by the site supervisor enhance the student's experience. For credit information, see the Cooperative Education requirements in the course description section of this catalog.

Course Adjustments (Add/Withdrawal)

Course enrollment should be carefully planned during each academic semester with the assistance of your academic advisor. After students are enrolled, changes may be made in the course enrollment by means of an Add/Withdrawal form. Add/Withdrawal forms are available from the Registrar's Office. Adds and Withdrawals must be approved by the offices indicated on the form. Courses dropped during the first ten days of classes will not be recorded on the permanent student record.

Withdrawal from a Course

Course withdrawal is official only upon completion of the Course Withdrawal Form. Non-attendance does not constitute withdrawal. No withdrawal will be processed based upon a phone call. To properly withdraw from your courses requires completion and signing of the course Withdrawal Form. Students officially withdrawing from a course after the first ten days of the semester will have their permanent record marked with a "W" for withdrawal.

Withdrawal from College

Students discontinuing their studies at BMCC during the academic year must complete the official Withdrawal Form. Students leaving college without completing the withdrawal form will receive a grade of "F" for all courses. NOTE: Withdrawal from college, after receiving federal financial aid funding, will result in the student financial aid being recalculated and the student may have to return any unearned aid.

Grading Policies

The student’s academic achievement is recorded on a scale of letter grades assigned by instructors each semester. The grades used by the college with the corresponding numerical values are as follows:

<table>
<thead>
<tr>
<th>Grade Significance</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>

</table>
I (Incomplete) Students are responsible for completing the requirements of courses in which they are enrolled by the end of the semester. Grades of incomplete will only be given when the student has completed seventy percent (70%) of the course requirements with a passing grade, and when in the opinion of the instructor, the student has a valid excuse for not completing on time and there is reasonable probability the work can be completed in the extension time. If the student does not complete the course requirements by the end of the extension granted (no later than five weeks after the semester ends), the grade earned up to that date will be recorded. An incomplete grade may affect your financial aid, and you are advised to discuss the matter with the Financial Aid Office.

AU (Audit) Individuals, who are interested in a particular subject and not interested in earning credit for it may audit the course. Listed below are the criteria for auditing a course:

1. Students may audit courses with permission of the instructor. The course will be marked audit on the official student grade transcript.
2. Students auditing courses pay the same tuition and fees as those taking courses for college credit.
3. Once students have enrolled in a course on an audit basis, they may not change their registration to a credit basis after the second week of the semester.

P (Passing) Students enrolled in special courses/workshops may be graded on a Pass/Fail system. Credit earned counts toward the total required for graduation; however, it is not included in the grade point average calculation.

CR (Credit) The grade of “CR” is recorded for departmental exams. Credit earned counts toward the total amount required for graduation; however, only 12 credits of courses taken as CR (credit) may be applied toward an associate degree, and 6 credits may be applied toward a certificate. Grades of CR are not included in the calculation of the grade point average.

R (Repeating Courses) Any course may be repeated, but credit is granted only once. The last grade received on a repeated course is used in computing the grade point average, even if the last grade is lower. However, a grade of “W” (withdrawal, no credit) for the repetition of a course will not replace a previous grade in the course. The student must register and pay tuition to repeat a course.

Courses with A, A-, B+, B, or B- grades may NOT be repeated, courses with a C grade may not be repeated without written permission from the Department of Academics. A course cannot be repeated after receiving credit in a course for which the repeat course is a prerequisite.

Attendance Policy
Attendance and class participation is extremely helpful in developing a thorough understanding of course material. The BMCC Board of Regents has set a base attendance policy of seventy percent (70%) attendance, which is required in order to receive a grade of “C” or better in the respective course. Individual instructors, with the approval of the Department Chair, may set a course’s attendance policy higher to reflect the requirements of the individual course and discipline of study.

Grade Reports
Grade reports are issued at the end of each semester or session of enrollment. Reports document grades, hours attempted, hours completed, honor points and GPA. Grade reports will not be released to students with outstanding financial obligations to BMCC.

Official Transcripts
Official transcripts of a student’s academic record will be sent to properly authorized individuals or organizations with a valid written request from the student. A fee of $10.00 is charged for each transcript issued.

Transcripts will not be released to students who have outstanding bills or who have overdue books or fines owed to the Library.
**Academic Probation**

Undergraduate students with a cumulative BMCC GPA below 2.0 will be placed on academic probation for the next semester and a probationary statement will be noted in the students’ record. A student will be removed from academic probation when their cumulative grade point average is 2.00 or better. A student on academic probation must either raise their cumulative grade point average to at least 2.00 the following semester or achieve and maintain a current semester grade point average of 2.00 or better each semester until they are removed from probation.

**Transfer of Credits to other Institutions**

Transfer equivalencies differ from institution to institution. Therefore, students who wish to transfer to another college or university should plan their course of study accordingly. Although students will be assisted by their academic advisors and the Registrar in this process, they must assume responsibility for meeting the requirements of the college or university in which they plan to enroll.

**Honors List**

Each semester the names of full-time students who have completed 12 credit hours that semester and earned a grade point average of 3.5 or higher are published by the college, subject to permission of the student. Those students are recognized as Honors List Students.

**Academic Achievement List**

Each semester, part-time students who have accrued 12, 24, 36, 48, and 60 credit hours with a grade point average of 3.5 or higher are recognized by being placed on the Academic Achievement List.

**Graduation Requirements**

Students of BMCC are expected to make academic progress during their course of study. Students pursuing an Associate Degree or Certificate must complete all courses required in their program and have a 2.00 cumulative grade point average to graduate. Students pursuing a Certificate of Completion must complete all courses required in their program and have a 2.0 grade point average in their last semester of full-time attendance. No more than 40% of a student’s total number of credit hours needed for a program may include transfer credit from another institution and courses taken at BMCC for CR (credit) grade.

**Commencement**

Commencement is held annually for degree, certificate, and diploma candidates. Students completing graduation requirements at any time during the year may participate in the annual Spring Commencement exercises. Students who will earn degrees, certificates or diplomas must apply for graduation by the announced deadline. Please check with student services for the date.

**Academic Code of Conduct**

Students are expected to adhere to traditional Native American values such as honesty, truth and respect while attending BMCC. To do otherwise diminishes the value and integrity of your education and degree from BMCC. To protect the worth of your academic achievements, we expect you to avoid cheating, plagiarism and other forms of academic dishonesty, which include but are not limited to the following:

- Cheating is the unauthorized copying or sharing of information by any party, by any means; such as verbal, electronic, written, and unwritten.
- Plagiarism is unacknowledged use of the ideas, words, and images (print or computer media) of others that are not public knowledge whether or not the intent is to present it as one’s own.
- Academic dishonesty is defined as any acts designed to circumvent the honest and moral completion of an individual’s assignment or test and might include unauthorized use of notes, textbooks, and computer media during an exam, or threatening or coercing an instructor.
Academic Disciplinary Sanctions

- The faculty member who feels a student has engaged in academic dishonesty will determine the sanction, which may include issuing a failing grade for the entire course.
- A form will be given to the student explaining the reason for the sanction.
- If a student has discussed the action with the instructor and feels the sanction is unwarranted, he/she may appeal to the Disciplinary Sanction Board.
- Serious offenses may be referred to administration, which may take independent action including suspension, removal from college or referral to law enforcement.

Academic Grievance

Academic grievances are disagreements between the student and instructor concerning assignments, grades, personal conflicts in the classroom, etc. Whenever a problem arises, all attempts should be made to resolve the issue informally. If such discussions fail to resolve the issue, the student has the right to file a formal grievance. Refer to the Student Handbook for the proper procedure.

International Students Not Accepted for Enrollment

BMCC was chartered by the Bay Mills Indian Community in 1984 under the regulations promulgated to implement the Tribally Controlled Community College Assistance Act of 1978. A condition of eligibility found in these regulations is that the college must maintain a majority Native American students if in operation more than a year. This severely limits the ability of the college to recruit non-Tribal students, BMCC grants preference to those non-Tribal students from the Eastern Upper Peninsula of Michigan and those employed by any Federally Recognized Tribe.

BOOKSTORE

BMCC has an agreement with an organization to provide textbooks to students; however, students may purchase their books from any source available. It is the responsibility of the student to ensure that he/she has ordered correct textbooks from a reliable source and that the textbooks arrive in time to start classes. You can find the required textbooks, listed by course, on the college’s website at http://www.bmcc.edu.

You will have to pay for your books at the time of purchase unless you qualify for a financial aid charge approval. To qualify, you must have accepted your financial aid award package (signed your financial aid award letter) at least one month prior to the start of classes and have enough financial aid to cover tuition, fees, and expected book charges.

If you would like to use your financial aid to pay for on-campus books, you must request a charge approval from the Financial Aid Office prior to the start of classes. If you qualify, the Financial Aid Office will give you a charge approval form that you will bring to the bookstore to purchase textbooks or supplies.

If you would like to use your financial aid to pay for online books, you need to send a request by e-mail to the Financial Aid Office at financialaid@bmcc.edu at least one week prior to the start of classes. They will send an e-mail to let you know whether you qualify for a financial aid charge approval. Once approved, e-mail your textbook order to aotbookstore@gmail.com. We recommend that you order your books approximately two weeks prior to the start of classes to allow verification and assure timely delivery of your textbooks.
STUDENT BILLING

Tuition and Fees

Tuition (Full and Part-Time)
Tuition per credit hour $95.00

Student Fees (Full and Part-Time)
Registration fee $30.00
Fees per credit hour $10.00
Health promotion fee (on-campus students) $20.00

Other Fees
Departmental examination fee (per exam) $50.00
Transcript fee $10.00
Return check fee (for non-sufficient funds) $20.00

Some programs and/or classes have additional or special fees to support the courses. Tuition and fees are subject to change.

Tuition Refund Policy

Students will receive a full refund of tuition and fees if a class is officially dropped within the following time frame:

- 16-week class, regular semester class - first ten scheduled class days
- 8-week class - first five scheduled class days
- 6-week class - first four scheduled class days
- 4-week class - first two scheduled class days
- 2-week class or less - one scheduled class day

Exceptions may be made when warranted by unusual circumstances. If a class is canceled, a student will automatically receive a full refund.

Billing Statement and Due Dates

Your billing statement will be available electronically by accessing your account online at http://www bmcc.edu. All student bills are expected to be paid in full within five business days from the date classes begin. If you have completed your financial aid paperwork by the financial aid deadline, financial aid will be applied to your account and you will need to pay any difference that financial aid does not cover. If you miss the financial aid deadline, you may still apply for financial aid during the semester you are enrolled. However, you will need to pay the full cost of your bill by the due date and you will be reimbursed later, if eligible for financial aid.

For on-campus students, we do offer a payment plan to help you pay tuition and fees for the current semester. Your outstanding balance will be divided into three consecutive monthly installments with the first payment due within five business days from the date classes begin. Please note that a business hold will be placed on your account until your semester balance is paid in full. Contact the Student Accounts Manager before the first payment due date to setup a payment plan.

If you fail to pay in full or setup a payment plan (available to on-campus students only) within five business days from the date classes begin, your account is delinquent and will be referred to a court or outside collection agency. Online students who have not paid in full by the payment due date will lose their password access and be dropped from classes. On-campus students who have not paid in full or setup a payment plan by the payment due date will have the password access to their classes suspended until payment arrangements are made.
**Payment Options**

You may pay in **U.S. funds** with cash (in person only), personal check, money order, Discover, MasterCard, or VISA. You may make a credit card payment directly on your student account by using our secure online payment system located on our website at [http://www.bmcc.edu](http://www.bmcc.edu). Checks should be made payable to Bay Mills Community College. Mail payments to Bay Mills Community College, Attn: Cashier, 12214 West Lakeshore Drive, Brimley, MI 49715.

There will be a 3% foreign transaction fee added to the student’s account for any check received in Canadian funds.

**Financial Holds**

The college will not issue transcripts and reserves the right to withhold grades, diplomas, and deny subsequent registration to any student whose account has an outstanding balance.

**Delinquent Accounts**

Accounts that are 30 days past due will be referred to a court or outside agency for collection. If you have arranged a payment plan with the Student Accounts Manager, your account is not delinquent unless you fail to make timely payments. If you miss one payment with no communication to the Student Accounts Manager, your account will be referred to a court or outside agency for collection.

The student is responsible for paying all charges due to the college as well as all collection agency or legal fees incurred to collect the delinquent account which may exceed 50% of the original amount owed.

**ONLINE COURSES**

Online courses provide the convenience of instruction that allows students to study from their own location and on their own schedule. Students may complete individual online courses or complete Associate of Arts degrees in either Early Childhood Education or Business Administration. Course work may include weekly online discussions, readings, and individual or group assignments. As in face-to-face courses, instructors require students to demonstrate mastery of subject area through exams, course projects, and research papers.

Registration, financial aid, textbook ordering, and advisement are completed online. There is a student services advocate who acts as liaison between students and faculty when needed. To learn more about online courses visit [www.bmcc.edu](http://www.bmcc.edu).
FINANCIAL AID

Financial Aid

Bay Mills Community College offers a variety of federal, state, and local scholarships, grants and work study opportunities. Many students are eligible for financial aid and should apply to find out what financial aid may be available. Most financial aid is based on need and is intended to assist students whose families cannot pay all, or perhaps any, of the college costs. The difference between what it costs to attend BMCC and what a student and his/her parents can reasonably contribute is considered the student’s unmet need.

Types of Financial Assistance

BMCC offers three types of financial aid:

- Scholarships: Non-repayable money, usually based on academic performance and/or demonstrated financial need.
- Grants: Non-repayable money, usually based upon demonstrated financial need.
- College Work-Study: Part-time work during the school year and evidence of financial need is usually a requirement.

These types of assistance are often combined to form a financial aid “package”. The “package” is designed to make up any difference between the school expenses and the expected family contribution. In the packaging process, each eligible student may receive scholarship and/or grant aid, as well as work-study funds.

When to Apply

BMCC recommends that you submit the Free Application for Federal Student Aid (FAFSA) by March 1 so that you’ll meet the priority deadline of completing your financial aid file by June 30. This deadline is for new and returning students. If you have other sources of financial aid, such as a direct pay by your tribe or employer, please submit a copy of the documentation to the Financial Aid Office by August 1 of each year. If you only plan to attend in the spring semester, complete the FAFSA by October 1 and provide authorization of other financial aid by December 1.

If you miss the financial aid deadline, you may still apply for financial aid during the semester you are enrolled; however, you will be required to pay for your books at the time of purchase. You will also be required to pay in full or setup a payment plan (available for on-campus students) for your tuition and fees within five business days of the date classes begin. If you’re eligible for financial aid, refund checks will be issued during the semester of any excess financial aid.

Financial Aid Eligibility

The Federal Government has determined that financial aid will be made available only to those students who have received a high school diploma or earned a GED.

In order to be eligible for financial aid, a student must:

- Be a U.S. citizen or "eligible non-citizen"
- Be accepted for admission to BMCC
- Complete the FAFSA and submit all required documentation for the financial aid file
- Be enrolled for the minimum number of credit hours needed to fulfill program requirements
- Maintain satisfactory academic progress
- Register with Selective Service, if required by law
- Not be in default on any Title IV loan or Title IV grant received at any institution
- Complete the Anti-Drug Abuse Certification Statement
Federal Pell Grant Lifetime Eligibility

Students are limited to 12 semesters (six years) of Pell grant eligibility during their lifetime. This regulation affects all students regardless of when or where they received their first Pell grant. For example, if you received a full time Pell grant for 8 semesters (four years) at BMCC, you would be limited to 4 semesters (two years) at another college or university.

The U.S. Department of Education is tracking your lifetime eligibility percentage. Since the maximum amount of Pell grant funding a student can receive each year is equal to 100%, the six year equivalent is 600%. For example, if you received a full time Pell grant for two semesters, you used 100% for that year. In the next year, if you enroll at three-quarter time for two semesters, you used 75% for that year. Together, you would have used 175% out of the total 600% lifetime limit. You can determine how much Pell you have used and what you have remaining at www.nslds.ed.gov or by contacting BMCC’s Financial Aid Office.

You must plan now for your future, especially if you intend to transfer to a four year college and pursue a Bachelor’s degree. Complete your classes and stay on track with your academic plan to attain your Associate and Bachelor’s degrees within the six year lifetime limit!

Return of Financial Aid for College Withdrawal or All F’s

When you receive a Pell grant, Federal Supplemental Opportunity grant, or Academic Competitiveness Grant to attend Bay Mills Community College, you are agreeing to complete courses covered by your financial aid. According to Department of Education regulations, if you withdraw or stop attending all classes prior to completing more than 60% of a semester, your aid will be recalculated based on the percent of the semester you have completed. For example, if you received a $1,000 award and only completed 30% of the semester, you would need to pay back $700.

If you received F’s in all of your classes, the U.S. Department of Education requires a recalculation of your financial aid based on the last date you attended. For example, if you stopped attending classes after receiving your financial aid refund check and get all F’s, you may have to pay back a substantial amount because you didn’t earn your Pell award.

If you are thinking about withdrawing from all of your classes or decide to stop attending classes, please contact the Financial Aid Office to determine how this will affect your financial aid and possible repayment.

Satisfactory Academic Progress Policy

Federal law requires all students who receive federal financial aid to make Satisfactory Academic Progress (SAP) toward their degree. The intent of this policy is to ensure that students who are receiving federal financial aid are making measurable academic progress toward completion of an eligible academic program in a reasonable period of time. This will be evaluated at the end of each semester. At that time, the Financial Aid Office will review the student’s transcript to determine if the student is in compliance with the following requirements:

- **Credit Hours** Students must earn at least 67 percent of the credit hours, which they attempt at BMCC on a cumulative basis. Students who fail to meet this requirement will be put on a SAP warning for their next semester of attendance. Students put on warning will be notified in writing of their status and informed of the deficiency requiring correction. Eligibility for financial aid will be suspended if the deficiency is not corrected by the end of the next semester of attendance.

- **Grade Point Average (GPA)** Undergraduate students with a cumulative BMCC GPA below 2.0 will be placed on academic warning. Students put on SAP warning will be notified in writing of their status and informed of the deficiency requiring correction to be removed from SAP warning. Students in good academic standing or on SAP warning are eligible for financial aid; however, failure by the student(s) on SAP warning to raise their GPA to the minimum 2.0 level after the semester of SAP warning will be placed on financial aid suspension. Students on SAP suspension are not eligible for federally sponsored financial aid programs. Transfer credits will not be considered in the cumulative BMCC GPA calculation.

Please contact the Financial Aid Office to obtain a copy of the entire Satisfactory Academic Progress policy.
**Maximum Credit Hours**

Students are limited to receiving federal financial aid for up to 150 percent of the number of credits required for their program of study. For example, if your associate degree requires 66 credits, you can obtain financial aid for up to 99 credit hours (66 x 150%) provided that you maintain satisfactory academic progress.

**Right to Appeal Financial Aid Suspension**

If your unsatisfactory progress was due to extenuating circumstances, you must appeal your Financial Aid Suspension within ten business days of the date on the notification letter. You must submit your appeal in writing to the Director of Financial Aid stating the reason for your unsatisfactory progress and in what way the situation has now been rectified, while attaching any appropriate documentation to your letter.

**Omnibus Drug Initiative Act**

All students receiving federal financial aid are required to certify that they will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance while a student at BMCC. This act gives courts the authority to suspend eligibility for federal student financial aid when sentencing a student who has been convicted of a drug-related offense.

**Grants and Scholarship Opportunities**

The following discussion is not a complete list of the types of grants and scholarships that are available. Please contact the Financial Aid Director to obtain additional information.

**Federal Pell Grant Program**

The Federal Pell Grant Program is a student aid program designed to provide undergraduate students with a base of financial aid to help meet the costs of attending college. The Federal Pell Grant is also the foundation from which all other student financial aid (federal, state, institutional, and private) is built. Eligibility for Pell is determined from the FAFSA application.

**Tribal Support Programs and the Indian Higher Education Program**

Financial assistance for tribal members wishing to pursue post-secondary education or vocational training is available through individual tribal education departments. To apply, contact your tribal education director for an application and program guidelines.

**Work Study Program**

The purpose of the Work Study program is to make available part-time employment opportunities for students who have demonstrated financial need and who are eligible for financial aid. Students at BMCC must apply through the Financial Aid Office. To determine if a student qualifies for work study, financial aid eligibility and work ability are evaluated. Students may be required to re-apply for work study programs each semester as actual employment is based upon funding available.

**Supplemental Educational Opportunity Grants**

The purpose of the Federal Supplemental Educational Opportunity Grant is to provide grants to exceptionally needy students to help pay for their post-secondary education. It is for undergraduates only and it does not have to be paid back. The minimum award is $100. To qualify for these grant funds, students must be eligible to receive a Federal Pell Grant.
**Michigan Works**

Under the provision of Michigan Works, the E.U.P. Employment and Training Consortium receives federal and state funding to provide financial assistance for classroom training to eligible residents of Chippewa, Luce, and Mackinac Counties. The purpose of Michigan Works is to prepare the student for immediate employment upon completion of training. Because eligibility requirements vary, students must contact the E.U.P. Employment and Training Consortium to explore available programs.

**Board of Regents Tuition Award**

This award WAIVES TUITION costs for all students admitted to BMCC who complete the required application and meet the following rules:

1. Must be a member of a U.S. Federally Recognized Tribe and submit a copy of your Tribal I.D. or verification of Tribal membership from your Tribal Enrollment Clerk.
2. Must maintain a 2.0 Grade Point Average.
3. At least 50% of all credits taken at any given time must be taken on campus. For example, if total credits in on-campus courses is less than 50% and online or off-campus is greater than 50% during the semester, eligibility for this award may be cancelled. *
4. Students must display good moral character to remain eligible (the BMCC student handbook defines acceptable student behavior).

The Board of Regents (BOR) Tuition Award is limited to sixty-six (66) credits, which is enough to secure an Associate Degree at BMCC. At a minimum, thirty-three (33) credits of the total of 66 credits must be taken on campus. If a student withdraws from a course after the drop period, and the BOR Tuition Award has been applied to the student’s account, the course will count against the sixty-six (66) credits allowed under the BOR Tuition Award program.

Any student currently earning below a 2.0 cumulative Grade Point Average at the end of the academic year will be placed on probation and have one academic year to bring their GPA up to a 2.0. If the student fails to achieve a 2.0 during the probationary period, they will not be eligible until their cumulative GPA is brought up to the 2.0 requirement.

* Early Childhood Education (EC designated) courses are not subject to the 50% on campus rule as stated above in Board of Regents part 3. Please contact the Department of Academics to obtain a list of the current EC courses qualified for waived tuition costs.

**American Indian College Fund (AICF)**

The American Indian College Fund scholarships and grants are an integral part of the financial aid package at Bay Mills Community College. The Financial Aid Office posts information regarding the AICF Grants/Scholarships at the beginning of each semester and the student is responsible for filling out the application online.

**Other Scholarships**

Scholarships are available from various donors, religious and service organizations. If you are interested in applying for any of these, please contact the Financial Aid Office.
STUDENT SERVICES

Family Educational Rights and Privacy Act (FERPA)

When a student turns 18 years old or enters a postsecondary institution at any age, all rights afforded to the parent under FERPA transfer to the student ("eligible student"). However, FERPA provides ways in which a school may – but is not required to – share information from an eligible student’s education records with parents, without the student’s consent. For example:

- Schools may disclose education records to parents if the student is claimed as a dependent for tax purpose.
- Schools may disclose education records to parents if a health or safety emergency involves their son or daughter.
- Schools may inform parents if the student, if he or she is under age 21, has violated any law or policy concerning the use or possession of alcohol or a controlled substance.
- A school official may generally share with a parent, information that is based on that official’s personal knowledge or observation of the student.

Student Support Services

The Student Support Services Office has access to a number of programs and agencies, which can assist students attending BMCC. The following is a list of some of the services, activities, and referrals available:

- traditional guidance/teachings
- utilization of Native American spiritual advisors
- talking circles
- annual ceremonials
- native workshops/gatherings
- personal/family/group counseling referrals
- substance abuse assessment/evaluation referrals
- peer tutoring assistance
- advocacy
- faculty/student liaison
- student/health care agency liaison
- career development/assistance
- GED scheduling/assistance
- college transfer information/assistance
- student leadership development
- resource materials
- Student Council advisors
- disability student services

BMCC Learning Center

The Learning Center offers academic assistance through a variety of teaching, tutoring, and assessment services designed to help students succeed in college. Its goal is to support and expand the students’ classroom experience.

Tutoring services are provided by peer and professional tutors. Students are encouraged to use the Learning Center to develop their skills in areas such as reading, writing, grammar, vocabulary development, and basic math. No previous computer background is necessary to experience success. The Learning Center doesn’t have to be scheduled or reserved; however, students should check to prevent conflicts.
TRIO (SSS) Program

The TRiO Student Support Services (SSS) Program is a federally funded program that offers academic support services and individualized resources to eligible students each year. The program is designed to provide services that will assist eligible students to achieve academic success, complete their educational program at BMCC, and successfully transfer to a 4-year institution.

Services available to TRiO-SSS participants are
- One-on-one advising
- Career counseling
- Professional tutoring
- Financial Aid counseling
- Career and learning style testing
- Transfer assistance
- University tours
- Cultural trips
- Equipment/laptop lending
- Grant aid
- Workshops

To be eligible to participate in the TRiO – SSS Program, BMCC students must meet income guidelines and/or be a first generation college student and/or have a documented disability. For further information, contact the college’s TRiO – SSS Director.

Student Rights and Responsibilities

As a tribally controlled community college and land grant institution, the mission of Bay Mills Community College is to provide quality educational opportunities, promote research, and facilitate individual development in an accessible, community-based, and culturally diverse environment that supports and maintains the Anishinaabek culture and language. The following Rights and Responsibilities are listed to assist students in their educational endeavors.

Rights
- The right to tribally-controlled higher education
- The right to academic freedom
- The right to freedom of religion and culture
- The right to privacy
- The right to freedom of speech and assembly
- The right to make decisions
- The right to safe and secure environment
- The right to humane and responsive treatment
- The right to be free from unreasonable search and seizure
- The right to due process

Responsibilities
- The responsibility for submitting accurate information
- The responsibility for discharging all legal obligations
- The responsibility of payment for all financial obligations
- The responsibility for completing class assignments in a timely manner
- The responsibility for adhering to all rules and regulations of Bay Mills Community College
Social Code of Conduct

Bay Mills Community College promotes the integration of Traditional Native American values in all educational programs. The seven (7) sacred traditional teachings charge us with seeking the virtues of wisdom, love, respect, bravery, honesty, humility, and truth. In keeping with this spirit, students are expected to behave as mature individuals and to conduct themselves in a manner which is a credit to their parents, the college, and their community.

The following violations will result in disciplinary actions:

- Possession of any firearms, other weapons or explosives on campus.
- Assaulting, threatening, harassing or endangering the health or safety of others.
- Unwelcome sexual advances, requests for sexual favors, or verbal or physical conduct of a sexual nature that unreasonably interferes with another and creates an intimidating, hostile or offensive environment.
- Theft or damage to public or private property.
- Unauthorized presence in or use of college facilities or equipment.
- Use of tobacco, except in authorized areas or for ceremonial purposes.
- Refusing to comply with college officials performing their duties.
- Use, possession, or being under the influence of an illegal drug or alcoholic beverage while on college premises or at off-campus sponsored events or field trips.

Any person possessing firearms, other weapons or explosives on campus, or those threatening the health, welfare, or safety of students, staff, instructors, or others may be banned from BMCC by the president. This ban is permanent and not appealable under the standard student grievance procedures. The banned individual will only be allowed to return when directed by a competent authority.

Social Conduct Disciplinary Sanctions

Any of the following disciplinary sanctions, which are consistent with Tribal, State and Federal law, may be imposed for violation of the Student Code of Conduct outlined above.

- Warning
- Written reprimand
- Restitution for damages
- Mandatory participation in an approved alcohol/drug abuse treatment program
- Probation
- Suspension
- Dismissal
- Referral for prosecution

Due Process

A student who is charged with a violation of the Social Conduct Code will

- receive a Written charge of the violation and the disciplinary sanction imposed
- have a Hearing, if requested
- have the right to Grieve the charge and disciplinary sanction

The student may continue in good standing until the appeals process is completed unless the safety of other individuals is affected. (See Student Handbook for a detailed description of the appeals procedure).

Student Council

The Student Council at BMCC may consist of full and part-time students, with the exception of BMCC employees. Student council officers, include a president, vice president, secretary, treasurer, and sergeant-at-arms. Officers are elected from the student body-at-large at the beginning of the fall semester each academic year. The Student Council President also represents the students as an ex-officio member of the BMCC Board of Regents.
**Student Activities/Clubs**

BMCC promotes many student activities and events. Students are encouraged to participate in all activities, and clubs sponsored by the Student Council and Student Services personnel.

**Parking**

Parking is provided by the college to all students, staff, and visitors. Handicapped parking is available in designated areas.

---

**COMMUNITY SERVICES**

**High School Completion and GED Program**

Consolidated Community School Services (CCSS) offers Bay Mills Community College students who are not high school graduates an opportunity to earn a high school diploma through dual-enrollment. CCSS also provides GED test preparation on-campus. Acceptance into these programs is based on age and expected high school completion date.

**Continuing Education Services**

Continuing education provides life-long learning opportunities within the college's service area. Offerings cover a variety of subjects designed to reflect the needs of the community, including professional development, academic credit and non-credit enrichment choices. Continuing Education Services also offers conferences, teleconferences, and seminars in cooperation with other tribal, regional or national organizations to meet the needs of our community.

**The Library**

The college library is a major academic resource for students at BMCC. Its facilities stimulate intellectual curiosity, promote research, and provide an atmosphere of learning. The library staff is available to provide assistance to students and other patrons using the library.

The book collection is arranged according to the Library of Congress system in open stacks. The reference collection contains dictionaries, encyclopedias, handbooks, bibliographies, manuals, almanacs, atlases, and other volumes that can be used for rapid information retrieval. A special part of the library is devoted to a collection of over 900 books dealing with Native American topics, many of which were authored by Native American scholars. In addition, the library collection features audio and video cassettes on Native American history and culture, language, law, literature, mythology, and handicrafts to support and enrich the Native American studies curriculum at BMCC.

The library also maintains interlibrary loan agreements with nearby public and academic libraries. An arrangement with the Upper Peninsula Region of Library Cooperation-Automated Library System allows the patron to have access to over 1,500,000 books by utilizing an online system linking many of the libraries of the Upper Peninsula. Books and other research materials are readily available to BMCC library patrons by means of the interlibrary loan.
GENERAL EDUCATION PROGRAM

The purpose of the General Education program at Bay Mills Community College is to provide the skills and knowledge necessary to be a successful citizen who contributes positively to society and continues to grow personally. BMCC believes that graduates should possess competency in the following areas: social sciences, Native history and culture, communication, health and fitness, science and math, critical thinking and technological literacy.

General Education in Social Science

The social science general education requirement at BMCC encompasses a broad spectrum of academic disciplines. In general, students will be able to describe the social, intellectual and political forces that affect change and permanence, particularly in the fields of psychology, sociology, economics, history, geography or education. At the end of their prescribed studies, students will be able to:

- identify the enduring institutions that shape the development of individuals, societies and cultures
- describe the roles, rights and responsibilities of groups and individuals within these institutions
- demonstrate understanding of interconnectedness and change in the human experience

General Education in Native History and Culture

Students will understand the diversity of Native histories, lifestyles, philosophies and cultures as well as the importance of traditional language in maintaining Native culture from the Anishnaabek perspective. At the end of their prescribed studies, students will be able to:

- describe the diversity of Native languages and cultures, particularly peoples of the Great Lakes areas (Anishnaabek)
- describe the historical, social, economic and political forces that shaped the current realities of Native American communities of the Upper Great Lakes region
- demonstrate the ways in which traditional Native teachings are relevant to their lives
- demonstrate an appreciation for multicultural frameworks of knowledge

General Education in Communication

Students will learn to generate, research, and organize ideas for the purpose of communication. They will communicate those ideas orally and in writing. They will employ effective rhetorical methods and accurate, Standard American English, using writing conventions in contexts and in documents appropriate to the goals of their degree or certificate program. At the end of their prescribed studies, students will be able to:

- access information from oral, print and electronic sources
- demonstrate comprehension of academic lectures and information contained in print and electronic sources
- appropriately explain and defend their own point of view, orally and in writing, through clear, accurate, and logically organized ideas, employing Standard American English sentence structure, punctuation, and mechanics
- prepare appropriately formatted documents, employing academic means of crediting sources

General Education in Health and Fitness

Students will develop an understanding of the habits, skills and attitudes that promote wellness and healthy lifestyles. At the end of their prescribed studies, students will be able to:

- access learning resources and information on health issues
- explain the wellness continuum and its impact on personal health
- describe the impact of personal dietary and lifestyle choices on health
- describe the physical, mental, emotional and social benefits of physical activity and healthy lifestyles
- plan, develop and implement a healthy lifestyle and maintenance program
General Education in Science and Math

Students will demonstrate practical knowledge of general mathematical and scientific concepts. At the end of their prescribed studies, students will be able to:

- apply the logical thought processes of mathematics to basic algebraic and statistical problems that are appropriate to students’ academic and career fields
- demonstrate knowledge of basic scientific principles in introductory, non-major level science, or, in the case of applied degrees, apply scientific or mathematical principles to other academic areas
- identify and explain applications of math and/or science in current local, national and global issues

General Education in Critical Thinking

Students will demonstrate the use of critical thinking skills for planning, problem solving and decision making in diverse academic and career fields and in everyday life. At the end of their prescribed studies, students will be able to:

- demonstrate problem-solving skills within their chosen field of study
- demonstrate critical thinking skills necessary to learn new concepts
- detect bias and establish credibility in statements and opinions
- use critical thinking skills to identify and evaluate ethical issues

General Education in Technological Literacy

Students will utilize information technology in educational, employment and personal environments. In addition, students will demonstrate their ability to remain current in the rapidly changing world of information technology. At the end of their prescribed studies, students will be able to:

- utilize common word processing, spreadsheet and presentation software to gather, organize and present information
- demonstrate functional knowledge of basic computer terminology related to hardware, software, networking, storage and security systems
- demonstrate the skills necessary to successfully navigate in online environments
- demonstrate skills in information sharing and communication in an online environment

General Education Sequencing

General education courses provide the core of learning which students need to succeed in their other courses and in their communities. General education learning is not limited to the required general education courses; rather, it is infused and practiced throughout BMCC’s curriculum. It is therefore in the students’ best interest to take these core classes in the exact order specified in their program.

Long periods of time between skill-based courses in Communication and Mathematics can cause individuals to lose vital learning that is necessary for success at the next level. BMCC students must enroll in Communication courses consecutively, starting with their first semester at BMCC and continuing until they have passed EN112 with a “C” or better. All Communication courses require a minimum of a “C” average to advance to the next level.

Prerequisites

Many degree-oriented courses require a “C” or better in EN111 or EN112 and completion of CS112 as course prerequisites. Completing these requirements early affords students a wider variety of course options during their third and fourth semester.
**General Education Assessment**

Solid General Education skills are the foundation for successful employment, transfers to four year universities, and lifelong learning. In order to ensure that we are delivering strong General Education curricula, BMCC continuously measures how much our students learn over more than one semester of skills development. Students should expect to have at least one standardized test in each of their second, third, and fourth semesters of their programs. The tests are administered as part of specific classes; you will take the tests as course requirements. These tests are 50 minute, multiple choice tests, not unlike the COMPASS.

There is no passing or failing this kind of test, and confidentiality regarding specific scores is strictly maintained. The results are used internally in order to continuously improve teaching and learning. Trends are examined over time and scores for groups of students are analyzed to identify areas that might need review.

33-35
Bay Mills Community College is a signatory to the Michigan Transfer Agreement. This agreement is designed to facilitate transfer from community colleges to baccalaureate colleges and universities in Michigan. The agreement provides for transferability of up to 30 semester credits to meet many (in some cases all) of the General Education Requirements at participating Michigan four-year colleges and universities.

To fulfill the Michigan Transfer Agreement, students must successfully complete at least 30 credits, with at least a 2.0 in each course. These credits, which will be certified by a Michigan community college, should be met according to the following distribution:

- 1 course in English Composition
- A second course in English Composition or 1 course in Communications
- 1 course in Mathematics
  - Course options include: College Algebra, Analytic Trigonometry and Statistical Methods
- 2 courses in Social Sciences
  - Courses must be taken in more than one academic discipline
  - Course options may include but are not limited to the following: Economics, Corrections, Education, Geography, History, Native American Studies, Psychology, Political Science and Sociology
- 2 courses in Humanities and Fine Arts
  - Courses must be taken in more than one academic discipline and may not include studio and performance courses
  - Course options may include but are not limited to the following: Art, Ojibwe Language, History, Literature, Music and Native American Studies
- 2 courses in Natural Sciences
  - Courses must be taken in more than one academic discipline and include at least one laboratory experience
  - Course options may include but are not limited to the following: Biology, Chemistry, Natural Science and Physics

Students are encouraged to meet with their academic advisors to select the appropriate courses that fulfill the Michigan Transfer Agreement requirements.
The following courses may be selected as electives in individual associate degree programs. Students should refer to the special requirements of individual degrees and consult with an advisor in selecting electives. Courses used to meet Michigan Transfer Agreement requirements must receive a C or higher grade (2.0 or higher).

DEGREE PROGRAMS

Programs of study at BMCC are designed to provide opportunities for students to develop skills, competencies and experience in chosen areas. Students can complete programs of study preparing them to transfer to a four-year institution or to seek immediate employment. BMCC also welcomes those seeking personal enrichment or new or updated job skills, as well as visiting students from other colleges. BMCC grants the following degrees: Associate of Applied Science (AAS), Associate of Arts (AA), and Associate of Science (AS). Non-degree programs lead to a Certificate of Achievement (C) or Diploma (D).

BMCC is continually striving to meet the needs of our students, our communities, and our nation. In an effort to meet identified needs, curricula are added as needed. If you do not see a particular program of study or curricula that meets your needs, call BMCC at 1-800-844-2622 to check for updates. Supplements to this catalogue will be published as required.

**Associate of Applied Science (AAS)**

Curriculums leading to AAS degrees are intense programs of study designed to prepare students for employment after graduation. Degree requirements for the AAS include a minimum of general education courses, a maximum of specialized occupational courses, and both designated and open electives. The concept of "career concentration" has been followed in the design of each program. Students become involved with career oriented courses during their first semester. This involvement continues throughout the time spent with BMCC. All candidates for an Associate of Applied Science degree must successfully complete a minimum of 62 semester credits.

Although the Associate of Applied Science degree is designed primarily for employment preparation, many of the courses in these degree programs can transfer to four-year colleges or universities. Students should consult with their faculty advisors if interested in transfer information.

**Associate of Arts (AA) and Associate of Science (AS)**

The Associate of Arts and the Associate of Science degree programs are BMCC’s basic academic transfer programs. Courses in these programs form the basis for many career options and majors and parallel those offered in the first two years at four-year baccalaureate degree institutions. All students wishing to transfer should work closely with their academic advisor at BMCC and the intended transfer schools in the planning of their course of study while at BMCC. The academic curriculums differ and can adversely impact your ability to transfer your credits unless you plan properly. Substitutions for prescribed courses may be allowed as necessary for individual students to meet specific transfer requirements. If prerequisite courses need to be taken prior to required courses, students should expect to spend additional time for program completion. All candidates for an Associate of Arts or Associate of Science degree must successfully complete a minimum of 62 semester credits. If prerequisite courses need to be taken prior to required courses, students should expect to spend additional time for program completion.

**Certificate and Certificate of Completion (C)**

Certificate programs at BMCC are designed to provide opportunities to develop skills in areas that would lead to employment. Specialized and technological certificates are available to meet the needs of business and industry. Some certificates may also lead to a degree program. Students should consult with an academic advisor to determine eligibility for continuation in an associate program. Other certificate programs are offered periodically which meet the specialized needs of business and industry.
**Associate of Applied Science Programs**

CONSTRUCTION TECHNOLOGY  

Upon successful completion, students will possess the skills necessary to construct homes and other residential buildings. Central areas to be studied will include blueprint reading, foundations, framework, exterior openings, exterior and interior finishes. Specialty subjects such as electrical, plumbing, heating and cooling will be based on the Michigan Residential Code guidelines. Graduated students will be able to use their skills and experience to obtain a career in residential construction.

OJIBWE LANGUAGE INSTRUCTION
NISHNAABEMWIN

The Nishnaabemwin Language Instructor Institute (NLII) is designed to encourage and promote the understanding and preservation of the Ojibwe language and prepare the student to function as a language instructor. It is also designed to enhance students’ cultural awareness and offer the opportunity to develop a functional command of the Nishnaabemwin language, which can be further expanded through additional study or through contact with other speakers of the language. Students will gain an understanding of the structure of the language, learn pedagogical principles and methods for teaching Nishnaabemwin.

This degree program is designed for those students who earn the Diploma in Ojibwe Language Instruction and who wish to receive an Associate Degree.

ASSOCIATE OF ARTS
BUSINESS ADMINISTRATION
Degree offered Online & On-Campus

This degree is designed to provide students with a foundation for careers in private or tribal enterprises as well as in a wide variety of government agencies. Students are also prepared to continue their education at four-year institutions in such programs as Business Administration, General Business, Management, Marketing, Accounting, and Office Information Systems. Students considering transferring to earn a bachelor’s degree should consult with an advisor before selecting electives.

ASSOCIATE OF ARTS
CRIMINAL JUSTICE CORRECTIONS EMPHASIS

This curriculum is designed to prepare students for various positions in correctional agencies at the local, state, and federal levels. The program includes a combination of theoretical, practical, and supportive courses. Courses included in this program would allow an individual to qualify for the 15 semester credits mandated by the State of Michigan for employment as a Corrections Officer in the Michigan Department of Corrections. The correctional and general education courses are transferable to many four year university programs.

ASSOCIATE OF ARTS
EARLY CHILDHOOD EDUCATION
Instruction delivered Online

This is a two year program delivered online that leads to an associate degree in early childhood education. It is for students who are interested in working with young children age birth to five and their families. Students will acquire an understanding of developmental patterns for children birth to five in such areas as cognition, emotion, social interaction, and physical growth. Students will also acquire knowledge in parent engagement and the necessary skills required to administer an early childhood program. Preparing teachers and administrators of Indian Head Start facilities nationwide is the primary focus of this program. A secondary focus is imparting an understanding of Native American culture as it applies to children in early childhood programs.

Other requirements: Completion of MTTC Basic Skills Test

Many courses have co-requisites and prerequisites; consult the course descriptions for more detail. Students should decide on their transfer school by the end of the second semester. Substitutions of courses are allowed only to meet specific transfer requirements and only if they maintain Michigan Transfer Agreement eligibility. Students seeking the Michigan Transfer Agreement Seal for transferability must complete two natural science courses from two disciplines. Students must work closely with the Teacher Education Coordinator/Advisor to determine selection and transferability of courses. Students are encouraged to contact the Department of Education at prospective transfer schools to confirm transfer plans.
ASSOCIATE OF ARTS
GENERAL STUDIES

This curriculum is primarily designed for students who wish to transfer to another institution to pursue further education beyond an associate degree. All students wishing to transfer should work closely with an advisor to determine course selection and should investigate the transferability of courses. Substitutions for prescribed courses may be allowed as necessary for individual students to meet specific transfer requirements.

***Michigan Transfer Agreement must be met to earn this degree, courses used to meet MTA requirements require a 2.0 or higher grade. Students seeking the Michigan Transfer Agreement Seal for transferability should complete two natural science courses from two disciplines. Students must complete at least 9 approved elective credits in one concentration area. Students are responsible for meeting the prerequisite courses as specified in the catalog.***
ASSOCIATE OF ARTS
GREAT LAKES NATIVE AMERICAN STUDIES

Great Lakes Native American Studies is committed to examining the contemporary and past experiences and life ways of the first Americans from an Anishinaabe perspective. The curriculum is designed to provide a study of the Anishinaabe from a holistic and humanistic viewpoint by not only focusing upon our historical and contemporary life, but our language and culture as well. Courses are designed for both Native American and non-Native American students so they can better understand the similarities and differences within our respective societies with the goal of achieving better communications and relations.

# CERTIFICATE OF COMPLETION

## CONSTRUCTION TECHNOLOGY

Upon successful completion, students will possess the skills necessary to construct homes and other residential buildings. Central areas to be studied will include blueprint reading, foundations, framework, exterior openings, exterior and interior finishes. Specialty subjects such as electrical, plumbing, heating and cooling will be based on the Michigan Residential Code guidelines. Graduated students will be able to use their skills and experience to obtain a career in residential construction.

CORRECTIONS

This curriculum is designed to prepare men and women for various positions in correctional facilities at the local, state and federal levels. The program includes a combination of theoretical, practical, and supportive courses. The Certificate courses approved by the Michigan Correction Officers Training Council give prospective employees higher employment consideration. Students who complete the five Corrections Officer Certificate courses will satisfy the mandate by the State of Michigan for employment as a Correction Officer in the Michigan Department of Corrections.

- CJ221 Correctional Law
- PY101 Introduction to Psychology
- SO106 Introduction to Sociology

* PY101 and SO106 co-requisite is EN111 or college level placement test score or permission of Department Chair.
CERTIFICATE OF COMPLETION
EARLY CHILDHOOD EDUCATION

This curriculum is designed to prepare students for the CDA competency exam. Courses will focus on child growth and development from birth to age five, with emphasis on planning a safe, healthy and supportive learning environment for children, including strategies in positive guidance. Hands on experience will supplement reading and study. The program will give students resource materials, and a basic foundation of knowledge. Classroom practicum is also incorporated. Students will observe and record children's behavior and progress in the areas of creative process, motor development, language and cognitive development.

Students are required to earn a grade of 2.0 or higher in all courses in this certificate. Courses must be taken in more than one discipline in each of the designated area electives. See page 32 of the catalog or the General Education Advisor for assistance. Students seeking the Michigan Transfer Agreement Seal for transferability must complete two science courses from two disciplines.
CERTIFICATE OF COMPLETION
EMERGENCY MEDICAL TECHNICIAN
BASIC

This course will prepare you for a job in the emergency medical field. The student will be trained in basic life support, patient assessment and management of medical and traumatic emergencies. It will include lecture and practical experience in aspects of emergency treatment and transport of patients to emergency departments. This course is pre-requisite for the EMT Specialist and Paramedic programs. The student must complete 40 hours of emergency department and ambulance clinicals.

CERTIFICATE OF COMPLETION
PARAMEDICS

This certificate program prepares the EMT Basic for the highest level of emergency medicine. The student will learn advanced techniques of administering care in life-threatening conditions and to reduce disability. It will also teach the students to recognize signs and symptoms of most life-threatening illnesses and injuries, and to effectively manage them. EMT paramedics are employed by advance life support ambulances, emergency departments, critical care units of hospitals, tactical teams, industrial medicine, and sports medicine groups. State licenses are required. The student is required to perform 550 hours of clinical hours in emergency departments and ambulance services.

Bay Mills Community College  Academic Year 2015-2017  55
INTRODUCTION

Bay Mills Community College has developed a much needed and recognized process of Nishnaabemwin language learning utilizing the concept that is found in the Medicine Wheel Teachings—teachings which are Nishnaabe and are intrinsic to the understanding and appreciation of Nishnaabe culture. Not only will the students gain and further develop this knowledge, they will also gain a positive sense of identity as Nishnaabe people and as members of the Nishnaabe nation.

In addition to Nishnaabemwin language learning and acquisition, students of the Nishnaabemwin Language Instructor Institute (NL&II) Program and students in the Nishnaabemwin Immersion Instruction Program will gain the skills necessary to teach the Nishnaabe language to second language learners.

THE PROGRAM

In keeping with the spirit of Bay Mills Community College’s mission, the goal of the Nishnaabemwin Language programs at BMCC are targeted for individuals who have a special commitment to regain and retain the Nishnaabe language and culture. The teaching and learning process of these programs are developed in a manner that is unique and dynamic, Nishnaabe driven, and attempts to make a difference in the lives of the learners. Historically, the educational experiences of Nishnaabe people have not been pleasant and their rich culture largely unappreciated. This has changed dramatically in the past few years with the ever increasing awareness and enhancement of pride in this rich heritage. With this in mind, the development of the program has been done in a holistic approach—holistic meaning integrating the language in all of the courses in this program.

LANGUAGE STUDIES GOALS

The goals of the Language Studies programs are as follows:

- To maintain the survival of Nishnaabe language and culture within the Tribal communities by providing opportunities for its study and creative use in the academic setting.
- To develop new approaches and skills in the use of Nishnaabemwin through research, teaching and production of materials.
- To introduce Nishnaabemwin to students who wish to learn it for self-growth, personal and professional reasons.
- To offer a framework from which the students will obtain knowledge and appreciation of Nishnaabemwin language and culture.
- To develop competent Nishnaabemwin speakers who possess a beginning to intermediate level of speaking proficiency.
- To provide students with the skills necessary for teaching Nishnaabemwin.
DIPLOMA
NISHNAABEMWIN LANGUAGE INSTRUCTOR INSTITUTE
OJIBWE LANGUAGE INSTRUCTION

The Nishnaabemwin Language Instructor Institute (NLII) is designed to encourage and promote the understanding and preservation of the Ojibwe language and prepares the student to function as a language instructor. It is also designed to enhance students’ cultural awareness and offer the student the opportunity to develop a functional command of the Nishnaabemwin language, which can be further expanded through additional study or through contact with other speakers of the language. Students will gain an understanding of the structure of the language, learn pedagogical principles and methods and techniques for teaching Nishnaabemwin.

This diploma program utilizes a holistic approach, which integrates and incorporates the language throughout all courses. Instruction will be completed in 80%, 90%, and 100% immersion of the Ojibwe language respectively for years I, II, and III. This diploma requires three intensive six-week summer immersion sessions in Ojibwe language development and teaching methods. Students who complete the three NLII summer programs and follow up weekend sessions (Dagwaagi, Biboon, and Minookami) will receive a BMCC Diploma of Nishnaabemwin Language Instruction.

**DIPLOMA**

**NISHNAABEMWIN PANE IMMERSION PROGRAM**

The four and six year diploma programs are designed to develop the Nishnaabe language learner’s ability to understand the content of fluent speakers’ speech and to respond to that speech appropriately. The semester course offerings and the immersion weekends provide a total immersion environment in which the language student can attain a high level of listening comprehension and eventually the ability to spontaneously produce speech.

COURSE DESCRIPTIONS

Unless indicated otherwise in the course descriptions, all prerequisites must be completed with a C or better or with permission of the instructor.

AC – ACCOUNTING

AC104  Payroll Accounting  3 CR
This class is designed to teach students the skills, procedures and conceptual knowledge necessary to figure a company’s payroll. Basic principles and concepts of accounting and financial reporting will also be covered. Co-requisites: MA101, and CS112 or CS121. Course offered on campus and online.

AC105  Using QuickBooks for Small Businesses  3 CR
Upon successful completion of the course, students will know how to use a computerized bookkeeping software package for small businesses. Instruction includes information on creating accounts, writing checks, balancing accounts, navigating the program, and more. Prerequisite: CS112 or CS121. Course offered on campus and online.

AC131  Accounting I  4 CR
This is an introductory course in accounting, which includes the recording and reporting of business transactions, and the measuring, planning and controlling of business income, assets and equities. Co-requisite: MA101 or permission of instructor. Course offered on campus and online.

AC132  Accounting II  4 CR
This course is a continuation of AC131 with emphasis on managerial/cost accounting concepts. Prerequisite: AC131 with a C or better. Course offered on campus and online.

AE - ACADEMIC ENRICHMENT

AE109  Fundamentals of Algebra  4 CR
This course is designed as a review of fundamental math skills and developmental algebra. Topics covered include fractions, decimals, ratio and proportion, application problems, charts and graphs, English/Metric measurement, geometry, and an introduction to properties of integers. Students must meet minimum requirements in this course before enrolling in future math courses. If minimum requirements are not met, the student receives a grade of Incomplete (I) and must repeat the course. Developmental in nature, credit in this course does not apply toward graduation. Prerequisites: Appropriate placement score less than three years old. Co-requisite: ED101 is required if the student has completed less than 15 college credits or has a cumulative GPA less than 2.0. Course offered on campus.

AE111  Reading Comprehension & Written Communication Skills II  4 CR
This course is designed to improve basic reading comprehension, vocabulary, and basic writing skills for those students requiring assistance as indicated by placement scores. Emphasis is placed on reading to access basic information; ease and fluency in written expression; and on application of standard grammar, punctuation, and capitalization rules. Students must pass this course with a C or better to advance to EN102. If this minimum requirement is not met, the student receives a grade of Incomplete (I) and repeats the course. Credit in this course does not apply toward college graduation. Prerequisite: Appropriate placement score. Co-requisite: ED101 is required if the student has completed less than 15 college credits or has a cumulative GPA less than 2.0. Course offered on campus.

BI – BIOLOGY

BI101  Introduction to Biology (Lab required)  4 CR
This course is designed to cover selected biological topics to allow the student to gain an understanding and appreciation of basic life functions, and mankind's relationship to his environment. This course is designed to fulfill the Natural Science requirement. Co-requisites: MA101 and EN111 or permission of instructor. Course offered on campus and online.

BI107  Human Biology (Lab required)  4 CR
This course is a survey of functional human anatomy and the related physiological processes of normal human activity at the chemical, cellular, tissue, organ, and system levels. It is designed to fulfill the Natural Science requirement. Prerequisites: High school Biology and Chemistry with a B or better, or BI101 or SI112 with a C or better, or permission of instructor. Course offered on campus.
**BU – BUSINESS**

**BU108  Macroeconomics  3 CR**
Macroeconomics principles will explore economic issues that occur on a national level: inflation and unemployment, fiscal policy, economic growth and business cycles, money creation and banking policy, the Federal Reserve, and monetary policies that promote economic growth. Prerequisite: EN111. Course offered on campus and online.

**BU109  Microeconomics  3 CR**
In this course, students will explore the branch of economics that deals with human behavior and choice, as they relate to relatively small units: the individual, the firm, the industry, and the single market. Prerequisite: EN111 or permission of instructor. Course offered on campus and online.

**BU113  Introduction to Business  3 CR**
This course is intended to provide the student a survey of the various and complex aspects of business and the interrelationship that exists between them. Topics will include business organization and management, personnel and labor relations, governmental agencies and controls, production, marketing, and the like. Current career opportunities will be explored throughout the course. Co-requisite: EN111. Course offered on campus and online.

**BU115  Entrepreneurship: Introduction to Small Business  3 CR**
This course is designed to introduce students to the concept of entrepreneurs and their role in small business, development and management. Students will examine the nature of small business and the factors that contribute to their success. Prerequisite: None. Course offered on campus and online.

**BU116  Introduction to Grants and Grant Management  3 CR**
This course offers students a basic understanding of the grant process from planning through submission and grant management. Prerequisite: basic computer and internet skills required. Course offered on campus and online.

**BU193  Communication and Writing Skills  3 CR**
This course develops skills in creating clear, accurate, effective business messages, recognizing the interrelationships of communication skills (reading, listening, writing, and speaking) with emphasis on basic rules of writing, grammar, the use of different styles, techniques and procedures for producing good written communications. Prerequisites: CS112 or CS121, and EN111 with C or better or permission of instructor. Course offered on campus and online.

**BU204  Business Law I  3 CR**
This course includes current coverage of business law fundamentals and their application to the legal and social environment of business. Topics covered include common law and the Uniform Commercial Code including contracts, sales, personal property, bailments, commercial paper, and employment. Prerequisites: EN112 and BU113. Course offered on campus and online.

**BU206  Principles of Management  3 CR**
This course is an introduction to the social and legal consequence of business and managerial decision-making. Studies include an overview of management planning strategies, principles of organizing, staffing, directing, and controlling. Upon completion, the student will be able to analyze issues, solve problems, and build management skills. Prerequisites: EN112 and BU113. Course offered on campus and online.

**BU209  Marketing  3 CR**
This course is designed to expose the students to various aspects of marketing. The emphasis is on identifying target markets with market segmentation and positioning approaches. It also focuses on developing the right marketing mix. Prerequisites: EN112 and BU113. Course offered on campus and online.

**CH – CHEMISTRY**

**CH104  Introduction to Chemistry (Lab required)  4 CR**
This course is designed to expose students to basic chemistry. The course will provide an introduction to measurement, basic definitions and laws, chemical nomenclature, chemical reactions and equations, atomic theory, and elements. It will also cover how chemistry impacts people and their environment. It is designed to fulfill the Natural Science requirement. Prerequisite: Completion of MA101 with a C or better. Course offered on campus.
CJ – CRIMINAL JUSTICE W/CORRECTIONS EMPHASIS

CJ101 Introduction to Corrections  3 CR
This course is intended for students interested in Corrections as a career. It will provide an understanding of the history and philosophy of corrections and correctional policy including correctional systems from arrest through parole/discharge, the Michigan Correctional System, correctional personnel and prisoner interaction and Michigan’s minorities in prison with an emphasis on Native American Correctional Programs. Prerequisite: None. Course offered on campus and online.

CJ112 Client Relations in Corrections  3 CR
This course is designed to provide students with an understanding of theoretical constructs as applied to clients in penal settings. Topics will include the meaning and function of culture on personality development, the meaning and impact of discrimination as it affects client relations, minorities in Michigan, attitude formation, and professional responsiveness to correctional clientele. Prerequisite: None. Course offered on campus and online.

CJ201 Introduction to Criminal Justice  3 CR
This course is designed to provide students with an exploration of the police, court and correction systems. It will examine the policies and legal issues that criminal justice professionals deal with on a daily basis. This course will lay groundwork for the study of criminal justice by analyzing and describing the agencies of justice and the procedures they use to identify and treat criminal offenders. Prerequisite: None. Course offered on campus and online.

CJ212 Institutional Corrections  3 CR
This course is designed to provide students with an understanding of the history and philosophy of correctional institutions as a system of control management, supervision, treatment, and reintegration of offenders nationally and within the Michigan Department of Corrections. This course will also stress the roles of correctional employees at all levels, the stress they encounter daily, and strategies for effectively coping with those stresses. Prerequisite: None. Course offered on campus and online.

CJ215 Corrections Client Growth and Development  3 CR
This course provides students with an exploration of human growth and development within the context of prison clientele. Areas of concentration include comparing normal and criminal behavior, tracing the development of the criminal pattern in the individual, exploring specific problems associated with clients in corrections, and intervention strategies. Prerequisite: None. Course offered on campus.

CJ221 Correctional Law  3 CR
This course deals with the law as it applies to the correctional system. Applicable court cases and legislation will be reviewed. Topics will include the sources of Corrections Law, the Criminal Justice System, rights of prisoners, civil lawsuits of prisoners, and how the law affects correctional employees. Also, there will be a special emphasis on Michigan Law. Prerequisite: CJ101 or permission of the Department Chair. Course offered on campus and online.

CIS/CS - COMPUTER INFORMATION SYSTEMS

CIS204 Computer Security  3 CR
This course is designed to arm students with the ability to recognize and combat threats to their computer and personal privacy. Lessons cover firewall basics, viruses, and Malware. Explanations of safe communication using encryption, secure socket layer (SSL), virtual private networks (VPN) are explained. At risk behavior, social engineering, and content filtering are discussed to provide an overall “best practice” of computer use. Please note: Topics covered in this class are subject to change in order to provide students with the most current information available at the time the class is offered. Prerequisite: CS112 or CS121. Course offered on campus.

CS112 Introduction to Computers  4 CR
This course is designed to provide beginning students functional knowledge of computer use. An overview of computer hardware, the Internet, terminology, basic local area network concepts and practical usage are covered. Software topics such as word processing, electronic spreadsheets, presentation graphics, and email are included. Prerequisite: None. Course offered on campus and online.

CS121 Principles of Microsoft Office  4 CR
This course covers the basic skills for word processing, spreadsheets, presentation graphics, and databases with emphasis on real-world situations. Prerequisite: Appropriate placement test scores. Course offered on campus and online.

CS128 Word Processing  4 CR
This course covers all Microsoft Specialist-level and Expert-level standards. A broad range of topics are covered such as: page and paragraph formatting, tabs, tables and columns, advanced editing, styles, templates, wizards, mail merge, graphics, charts, fields, forms, and macros. Prerequisite: CS112 or CS121. Course offered on campus.
CS132  3D Design  2 CR
This course will introduce 3D Design using Creo Parametrics software to create, analyze, view and leverage product designs utilizing 2D CAD, 3D CAD, parametric & direct modeling.  Prerequisite: CS112 or CS121.  Course offered on campus.

CS142  Internet Search Techniques and Strategies  1 CR
This course is designed to give students a basic understanding about working in an online environment, developing positive online relationships, and utilizing online resources.  Prerequisite: CS112 or CS121.  Course offered on campus.

CS204  Web Page Design  3 CR
With successful completion of this course students will be able to design web pages. Hypertext Markup Language (HTML) basics are covered, followed by using a web-page design program such as Dreamweaver.  Prerequisite: CS112 or CS121.  Course offered on campus and online.

CS215  Desktop Publishing  4 CR
This course is designed to take the student from simple through complex publishing procedures covering merging graphics and text to produce newsletters, catalogs and newspapers using desktop computer software.  Prerequisites: CS121 or CS112 and EN111.  Course offered on campus.

CS216  Spreadsheet Design and Management  4 CR
In this course, students will begin with basic concepts and design of spread sheets and move into the advanced spreadsheet applications for business, this will include writing and working with formulas, creating charts, working with data tables, and importing data into spreadsheet software.  Prerequisites: CS112 or CS121, MA101.  Course offered on campus and online.

CS221  Computer Programming  4 CR
Students will study how to use programming languages to create dynamic web pages, and how to add animation and interactivity to web pages.  Document Object Model (DOM) and Browser Object Model (BOM) will be utilized to develop well-formed web pages.  This course will provide the insights and innovative techniques to be able to develop real code for real applications such as microcontroller processing and/or mobile app development.  Prerequisite: CS112 or CS121.  Course offered on campus.

CS222  Advanced Operating Systems  4 CR
This course trains students in the installation, configuration and administration of Network Operating Systems.  This course focuses on installing a Windows Domain controller using Active Directory in the Windows Server environment.  Prerequisite: CS112 or CS121.  Course offered on campus.

CS225  Microsoft Desktop Operating Systems  3 CR
This course provides students with the skills and knowledge necessary to: install and upgrade Windows Operating Systems; configure and troubleshoot post-installation system settings; configure network connectivity; configure Windows security; configure applications included with Windows; maintain and optimize systems that run Windows Operating Systems; and configure and troubleshoot mobile computing.  Students are prepared for the Microsoft Certified Technology Specialist (MCTS) examination, 70-620.  This course is subject to change to keep current with Microsoft Operating Systems.  Prerequisite: CS112 or CS121.  Course offered on campus.

CS226  Computer Hardware Systems  4 CR
This course introduces students to PC hardware and configuration, as well as basic troubleshooting techniques.  Students will receive a basic understanding of how computers work, how software and hardware work together, system boards, peripherals, Input/Output devices, and power supplies.  Co-requisite: CS112 or CS121.  Course offered on campus.

CS227  Networking Technologies  4 CR
This course covers the basics of networking, network operation systems, network administration and future networking technologies.  Successful students will be able to describe, design, and build a functional network as well as understand the administration of the network, network operating systems and network applications.  In addition, they will become knowledgeable in wireless LAN’s and potential future technologies.  Prerequisite: CS112 or CS121.  Course offered on campus.

CS228  Advanced Computer Hardware  4 CR
This course is designed to prepare students to pass the Industry Standard A+ certification test, one of the most sought-after certifications in the computer industry.  Successful students will become proficient in the installation, maintenance and troubleshooting of hardware on dedicated PC’s and LAN’s through a combination of lecture, demonstrations and hands-on-lab exercises.  Prerequisites: CS226 with a C or better.  Course offered on campus.
CS231  Linux Administration  4 CR
This course is designed to provide students with an introduction to the Linux operating system using Linux distributions. Students will learn how to create, delete, copy, move, and search for information on a Linux system as well as organize information using the Linux system file structure. Students will be introduced to the VI editor and other text editors. Students will learn how to use the bash shell and create shell scripts for automated system administration, be introduced to the X Windows system and its graphical user interface. Students will explore Linux capabilities in the network environment and on the Internet. This course will look at system administration, job control and some of the utilities that are available. Prerequisite: CS112 or CS121. Co-requisite: CS226. Course offered on campus.

CS232  Introduction to Routing  4 CR
This course will provide an introduction to the concepts of Cisco devices while learning the commands to log into routers and switches in both user and privilege modes, manage and view configuration files, control passwords, hostnames and banners. In addition, this course covers the OSI reference model, IP addressing, subnetting, data link and network addresses, and concepts of data encapsulation. Prerequisite: CS227 with a C or better. Course offered on campus.

CS233  Advanced Routing  4 CR
This course covers VLSM, LAN switching, VLANs, VTP EIGRP, OSPF, RIP2 and WANs for Cisco router and switches. In addition, students will be able to design a WAN, identify and describe technologies such as HDLC and PPP encapsulation, ISDN, and Frame Relay. Prerequisite: CS232. Course offered on campus.

CS271  Cooperative Education: Computer Information Systems  5 CR
This is a course designed to continue training in a student’s field of study through work experience. Students are graded on the basis of documentation of learning acquired as reported by student and employer. The student will complete 15 hours weekly for a total of 225 contract hours. This training should be accomplished during the student’s final semester. Prerequisite: This is a capstone course, Department Chair permission required. Course offered on campus.

**CT – CONSTRUCTION TECHNOLOGY**

CT111  Construction I: Introduction to Construction  5 CR
This course is an introduction into carpentry and related trades. This course will be held during the first eight weeks of the semester. Construction I will cover the general layouts and structures used in constructing a wood frame dwelling. Students will learn proper safety procedures and standards, which are mandated by MI.O.S.H.A. There will be a special emphasis on the proper use, care, and maintenance of equipment. Students will also become familiar with construction terminology, various construction materials, and basic framing techniques. Course offered on campus. Prerequisites: None.

CT112  Construction II: Framing and Exterior Finish  5 CR
This course is a continuation of Construction I and will be offered during the second eight weeks of the fall semester. This course will involve students in building activities such as wall framing, door/window installation, roof construction, exterior detail, and exterior wall finishing. Students in this course will learn rafter framing techniques, stair calculations, and other special framing systems. Co-requisite: CT111. Course offered on campus.

CT113  Construction III: Interior Wall Finish  5 CR
This course is offered in conjunction with Construction IV, and is held during the first eight weeks of the spring semester. Students will learn the fundamentals of thermal and acoustical insulation. Students will be taught the various types of materials used to finish interior walls. Students will also learn proper techniques to hang, tape, mud, sand, and finish drywall. Prerequisite: CT112 or Instructor’s permission. Course offered on campus.

CT114  Construction IV: Finish Carpentry  5 CR
This course is offered in conjunction with Construction III, and is held during the last eight weeks of the spring semester. Students will complete the interior wall finish of a house project. Students will learn to paint, install interior doors, install trim, design shelves, and perform many other facets of finish carpentry. Students will develop an understanding of modern techniques used to install vanities, kitchen cabinets, and finish flooring. Co-requisite: CT113. Course offered on campus.

CT122  Principles of Blueprinting  3 CR
This course introduces the students to architectural drawings. Students will learn how to navigate and interpret a set of plans through the use of site plans, floor plans, elevations, sections, and details. Prerequisite: None. Course offered on campus.

CT202  Material Estimating  3 CR
This course involves students in the process of estimating material and labor amounts for construction projects. Students will investigate quantity takeoff, material ordering, crew sizes, production rates, and unit expenditure. Prerequisite: None. Course offered on campus.
CT211 Construction V: Site Construction  5 CR
This course is offered in conjunction with Construction VI, and is held during the first half of the semester. During this course students will learn necessary steps for site construction including soil classifications, soil characteristics, soil mechanics, elevation contours, leveling procedures, grading methods, building layout procedures, and concrete forming techniques. Prerequisite: CT114 or Instructor’s permission. Course offered on campus.

CT212 Construction VI: Concrete & Foundations  5 CR  
This course will be the second half of the semester. During this course the students will have the opportunity to study the use of concrete as a building material for foundations, decorative work, and as an interior finish option. Students completing this course will understand inherent strengths, characteristics, concepts of thermal mass, and compositions of numerous concrete mixture ratios. Students will learn basic techniques used in masonry and the various bonds that are used in block and bricklaying. Course offered on campus.

CT214 Alternative Methods, Materials, and Resources  1-3 CR
The purpose of this course is to instill flexibility into the Construction Technology program so that students receive up-to-date information on current trends in building materials, building methods, energy resources, energy conservation techniques, and green building designs. Material covered and credits will vary from year to year depending on demand, availability, and resources. Prerequisite: None. Course offered on campus.

CT232 Residential Utilities  3 CR
This course encompasses topics related to electrical, plumbing, and heating. During the electrical portion of the course students will learn about circuitry, electrical design, electrical codes, and basic electrical theory. In the heating and cooling segment, the focus will be targeted on heat load calculations, cooling systems, heating methods, and various heating systems. In the plumbing section, students will study the mechanics of plumbing systems. This will include methods of attachment, pumps, feed lines, vent systems, appliances, waste lines, and waste systems. Prerequisite: CT212 or Instructor’s permission. Course offered on campus.

CT233 Principle of Workforce Leadership  5 CR
Designed to promote productive relations in the workforce, students in their second year will be modeling a foreman position. As crew leaders, they will work with first year students in order to learn the different communication skills required on the job site. Students investigate various code regulations, and develop a sturdy log to properly document the student house projects. At the end of this course, students will create a personal resume and participate in an exit interview. Prerequisites: CT261 or CT271. Course offered on campus.

CT234 Legal Aspects of Construction  1 CR
This course is an introduction to legal implications in the building and construction industry. This course reviews the Michigan Construction Lien Act with an in detail look into the laws and rules relating to Residential Builders and Maintenance and Alteration Contractors. Prerequisites: CT233 or instructor’s permission. Course offered on campus.

CT261 Cooperative Education (Field Experience)  3 CR
This advanced practicum is designed for the hands-on application of classroom lessons in construction applications of various sizes and complexity. Effort will be made to have the student spend time with a contractor on site to learn more about the trade and form a base for future employment. The duration of this course is three weeks, five days per week at eight hours per day. Prerequisite: CT114. Course offered on campus.

CT271 Cooperative Education (Field Experience)  5 CR
This advance practicum is designed for the hands-on application of classroom lessons in construction applications of various sizes and complexity. Effort will be made for each student to spend time with a contractor on site to learn more about the trade and form a base for future employment. The duration of this course is five weeks, five days per week at eight hours per day. Prerequisite: CT114. Course offered on campus.
EC101  Introduction to Early Childhood Education  4 CR
This course will give students an overview of the field of early childhood education. It looks at the history as well as current practices, how early experiences influence brain growth and development, what activities constitute best practice and quality environments. The course also covers professionalism in the field: professional ethics, and the commitment to being a lifelong learner. Prerequisite: None. Course offered online.

EC107  Competencies and Best Practices in Children and Family Programs I  4 CR
This is the first of two courses that will prepare students for CDA (Child Development Associate) competency exam. This course focuses on child growth and development from birth to age five, with emphasis on planning a safe, healthy and supportive learning environment for children, including strategies in positive guidance. Hands on experience will supplement reading and study, and students will learn how to find and use many resources. Classroom practicum is also incorporated. Students will explore ways to support positive social development in children, strategies for positive guidance and management, and ways to establish and maintain a safe, healthy, appropriate learning environment for children. Prerequisite: None. Course offered online.

EC108  Competencies and Best Practices in Children and Family Programs II  4 CR
This is the second of two courses that will prepare students for the CDA (Child Development Associate) competency exam. This course will give students resource materials, a basic foundation of knowledge, and hands-on experience in ways to nurture cognitive, motor, language and creative process skills in children. The main objective is to teach students ways to advance physical and intellectual development in young children. Principles of children's growth and development will be integrated throughout the course, as will experiences in observing and recording children's behavior and progress in the areas of creative process, motor development, language and cognitive development. Long range and daily planning will also be explored. Students will be observed working with children, will continue to work on their professional resource files, and will fulfill other course requirements. Prerequisite: EC107 with a C or better. Course offered online.

EC117  Health, Safety, and Nutrition for Early Childhood  3 CR
In this course, students will understand the roles of good nutrition, health, and safety in the early childhood classroom. Students will learn practical skills and procedures to increase their effectiveness with young children. This course incorporates and will provide students with accurate, authoritative, and up-to-date information on nutrition, health, and safety for young children. Co-requisite: EN111. Course offered online.

EC212  Child Development  4 CR
In this course, students will be introduced to the unique qualities of the young child as distinguished from the older child. Beginning with developmental and learning theories, students will study all developmental areas of young children, to include affective, cognitive, physical and motor skills. Students will learn practical skills and procedures to increase their effectiveness with young children. This course incorporates and will provide students with accurate, authoritative, and up-to-date information on child development. Prerequisite: EN111. Course offered online.

EC216  Curriculum Development  3 CR
This course will focus on curriculum development for Early Childhood Education as well as developmentally appropriate practices for children birth - 5. Students will do reading from the textbooks - Early Education Curriculum, A Child's Connection to the World and Developmentally Appropriate Practices in Early Childhood Programs. This course will enhance the student's understanding of early childhood curriculum and developmentally appropriate practices. Prerequisite: EN111. Course offered online.

EC217  Emergent Literacy  3 CR
This course will explore the current attitudes, experiences, and opportunities which promote the development of reading and writing in young children. Because literacy begins at birth, students will learn about infant-toddler, as well as pre-school, development and activities. The course will also examine the role of reading aloud to children. Prerequisite: EN111. Course offered online.
EC218  Developing Family Partnerships  4 CR
This course is designed to give students the essential partnership building skills that contribute to Head Start's overall effectiveness a supportive, family centered community program. Students will learn about the critical role they will play as an Early Childhood worker, both individually and as part of team interactions with families, as well as gain knowledge and skills necessary to promote and sustain supportive partnerships. Topics covered will include: cultural awareness, development of individualized Family Partnership Agreements, identification and implementation of family centered goals, strengths and support, follow-up and tracking, comprehensive and confidential record keeping, as well as skills encompassing personalized attention, mutual respect, trust, acceptance and flexibility.  Prerequisite: EN111.  Course offered online.

EC219  Inclusion of Special Needs Pre-Schoolers in Early Childhood  3 CR
This course will provide practical information about how to create and implement a high quality learning environment for children with special needs, within an Early Childhood program serving typically developing children.  Prerequisite: EC212.  Course offered online.

EC221  Infant-Toddler Development  3 CR
This course will provide practical information about how to create and implement a high quality learning environment for children with special needs, within an Early Childhood program serving typically developing children.  Prerequisite: EN111.  Course offered online.

ED – EDUCATION

ED101  First Year Experience  1 CR
This course introduces strategies to aid students in developing study skills that are needed for success in college.  Topics include: importance and use of a syllabus; time management and organizational skills; effective textbook reading; effective note taking; writing a summary; test-taking; using technology.  Prerequisite: None.  Course offered on campus and online.

ED111  Social & Emotional Needs of Children  3 CR
In this course, students will learn about the nature of social development in young children and how to guide that development in the early childhood classroom. They will learn practical skills and procedures to increase their effectiveness with young children. This course incorporates the sound principles of child development, relationship enhancement, and behavior management.  Co-requisite: EN111.  Course offered online.

ED201  Introduction to Education and Student Diversity  4 CR
This course is designed for students who are considering careers in education as certified teachers or as qualified paraprofessionals.  Course content provides an overview of the role of schools in society; the roles and responsibilities of teachers and paraprofessionals; school curricula and instruction.  Students will also learn about the wide diversity of learner needs in the classroom including differences in learning styles, linguistic, cultural, and economic backgrounds, gender issues, and physical and learning disabilities.  Human development is studied in terms of teaching and learning.  Additional topics include Michigan Curriculum Framework and Michigan requirements for teacher certification and Title I Part A requirements for paraprofessionals.  Field experience is required.  Co-requisites: CS112 and EN111.  Course offered on campus.

ED213  Human Growth and Development for Educators  3 CR
This course is designed to explore concepts of human physical, intellectual, personality, and social development from conception to advanced maturity, with particular emphasis on learning readiness and abilities at each stage.  Students will learn how these concepts impact classroom instruction and curriculum design, with particular emphasis on the effective components of the Michigan Standards and Benchmarks.  Prerequisites: EN112 and PY101 or permission of instructor.  Course offered on campus.

ED220  Integrating Technology in the Classroom  3 CR
This course explores technology operations, concepts, and a variety of instructional tools.  Students in this course will apply learning theory with technology to create lesson plans and outcomes aimed at improving critical thinking, communication, creativity and digital citizenship.  Prerequisite: ED201.  Course offered on campus.

ED252  Children’s Literature  3 CR
This course introduces students to selected readings and discussions in developmentally appropriate literature for young children, age's birth through eight years old. Coursework includes the development of activities to integrate literature in the whole curriculum of early childhood education.  Prerequisite: EN111.  Course offered online.

ED255  Children’s Literature for Grades K through 8  3 CR
This course introduces students to a wide variety of children's literature, such as poetry, folklore, fantasy, realistic fiction, historical fiction, and biography, at the levels suitable for children ages five through 13.  It covers the analysis of children’s fiction, enabling the student to discuss plot, setting, characterization, theme and style.  It also stresses the use of literature in teaching cultural diversity.  Prerequisite: EN111 or EN219.  Course offered on campus.
EN102 Introduction to College Reading & Writing I  4 CR
This course is designed to prepare students for college level reading and writing skills in preparation for college level courses. Emphasis is on building specific skills for reading analysis and critical evaluation; grammatical accuracy; and organization of ideas in paragraph writing, particularly in the context of college assignments. Placement in this class is based on assessment scores or successful completion of AE111 with a C or better.
Prerequisite: AE111 with a C or better, or appropriate placement test score. Co-requisite: ED101 is required if the student has completed less than 15 college credits or has a cumulative GPA less than 2.0. Course offered on campus and online.

EN103 Introduction to College Reading & Writing II  4 CR
This course is designed to prepare students for college level reading and writing skills in preparation for college level courses. Emphasis is on building specific skills for reading analysis and critical evaluation; grammatical accuracy; and organization of ideas in paragraph writing, particularly in the context of college assignments. Placement in this class is based on assessment scores or successful completion of EN102 with a C or better.
Prerequisite: EN102 with a C or better, or appropriate placement test score. Co-requisite: ED101 is required if the student has completed less than 15 college credits or has a cumulative GPA less than 2.0. Course offered on campus and online.

EN107 Public Speaking  3 CR
This course develops student self-confidence and organizational abilities in formal and informal speaking situations. Emphasis is placed on planning and organization of informative and persuasive speeches, as well as speeches to entertain. Topics include effective listening skills, problem-solving strategies, discussions, oral reading, and impromptu speeches. Tribal oratory tradition is also explored. Co-requisite: EN111. Course offered on campus.

EN111 College Composition  4 CR
This course introduces students to the writing and thinking skills necessary for academic success in college. A variety of college writing contexts are examined, including essay tests, summaries, reaction papers, and expository essays. Within these contexts, the course explores various methods of development, such as process, exemplification, classification, and cause and effect. Emphasis is placed on critical thought, organization, correct usage, and mechanics.
Prerequisite: EN103 with a C or better, or appropriate placement score. Co-requisite: CS112 or CS121. Course offered on campus and online.

EN112 Content Area Composition and Research  4 CR
This course allows students to strengthen organizational strategies for expository writing across the curriculum, and it introduces them to research within the academic disciplines; students are taught to use A.P.A. documentation. Critical thought, organization, correct usage, and mechanics are stressed.
Prerequisite: EN111 with a C or better; and CS112 or CS121. Course offered on campus and online.

EN206 Creative Writing  3 CR
This course explores the creative process in writing poetry, fiction and drama. Students experiment with various literary modes while examining the work of established poets and fiction writers. Classroom activities include sharing individual work, compiling a portfolio and pursuing publishing opportunities. Techniques of writing short literary essays are introduced; correct usage and mechanics are emphasized. Prerequisite: EN111. Co-requisite: EN112. Course offered on campus.

EN219 Technical and Report Writing  4 CR
This course furthers development of writing and critical-thinking skills in the contexts of business, government, industry and academia. Emphasis is on audience analysis, appropriate style, document format, and research methodology in reports, proposals, public communications and correspondence. Correct usage and punctuation is stressed; APA documentation is required. Prerequisite: EN112 with a C or better, and CS112 or CS121. Course offered on campus and online.

EN225 Contemporary Native American Literature  3 CR
This course is an overview of Native American literature which touches on foundations in oral tradition and oratory but focuses on modern poetry, fiction, drama, film, biography and essays. Emphasis is placed on recognizing the unique thematic concerns of Native literature. Prerequisite: EN112, or permission of instructor. Course offered on campus and online.

EN226 Advanced Composition & Research  4 CR
This second year writing course furthers development of academic writing skills. Emphasis is on extended essay writing, based on analysis and critical discussion of academic readings and covering a range of rhetorical methods. This may include definition, classification, comparison/contrast, cause/effect and argumentation. Students are engaged in the research process, using a variety of primary and secondary sources, with APA documentation.
Prerequisite: EN112 with a C or better. Course offered on campus and online.
ES101  Fitness and Wellness  2 CR
This course is designed to provide an introduction and investigation into the foundations and principles of physical fitness and health. Fundamental theory of the psychological and physiological basis of physical fitness will be presented and discussed, as well as topics and issues relevant to the broad areas of health and wellness. Each student will be given the opportunity to develop a personal wellness program based on information obtained through class. Prerequisite: None. Course offered on campus and online.

ES105  Sociology of Sports  4 CR
This course will give students various perspectives on society and sport. Issues covered in class include socialization through sport; sport and the American school; sport and aging; aggression and violence in sport; racism in sport; women and sport; and sport as a political tool. Prerequisite: None. Course offered on campus.

ES107  Coaching Fundamentals  4 CR
This course will define the attributes and abilities of a good coach by taking a close look at the coach as a person, a professional, and a manager. Students will be given information on teaching methods, athlete selection, developing appropriate behavior, equipment management, and the legal aspects of coaching. Prerequisite: None. Course offered on campus.

ES109  Conditioning and Strength in Training  4 CR
This course is an introduction to laying the foundation of conditioning and strength training. Students will learn about aerobic and anaerobic conditioning, sports nutrition, flexibility, putting together a conditioning program, strength exercises, strength training facilities, and equipment. Students will be required to plan and develop training programs for a wide variety of sports. Prerequisite: None. Course offered on campus.

ES110  Physical Rehabilitation  2 CR
This course gives students practical information regarding the rehabilitation of the injured athlete. We will take an in-depth look at critical decisions relative to the various rehabilitation programs. Students will be required to devise rehabilitation programs as related to the athlete’s injury and sport. Prerequisites: EN112. Course offered on campus.

ES112  Sports Nutrition  2 CR
This course will give students knowledge of the basic principles of nutrition as well as the role of the major nutrients in their application to wellness and fitness, as well as athletic performance. This course will address the interaction of diet and exercise in modifying the condition of the individuals with metabolic dysfunction and compromised cardiovascular health. We will also examine the nutritional needs of athletes and the effectiveness of ergogenic aids in enhancing sport performances. Prerequisite: None. Course offered on campus.

ES204  Care and Prevention of Sports Injuries  4 CR
This course is in the diagnosis and management of sports-related injuries. Prevention of sports injuries will be covered as well in the class. Students will learn and properly demonstrate proper taping techniques of injuries. Prerequisite: EN112. Course offered on campus.

ES 205  Sports Management  4 CR
This course is designed to give students an overview of successful sports management, with an insight into the skills and competencies required in the private sector. Students will learn the basic how-to of commercial sports management, which will include organizational skills, planning strategies, managing people, relating to the consumer, and staying on the right side of the law. Prerequisites: ES107 and EN112. Course offered on campus.

ES208  Exercise Physiology  4 CR
This course provides a balanced view of the Theoretical treatment of exercise physiology. Students will learn through applications using the performance approach. The class will emphasize control of physiological systems during exercise. Prerequisite: EN112. Course offered on campus.

GE105  Introduction to World Geography  4 CR
This course will introduce students to the discipline of Geography, and will provide students with a geographic framework for understanding global, regional, local issues and problems. This course will expound upon the physical geography of the Great Lakes region, and the impact of geography on the region’s peoples and products. Co-requisite: EN111. Course offered on campus and online.
**HL – HEALTH**

**HL125  Emergency Medical Technician Basic Training  12 CR**  
This program provides an understanding of the role of an emergency medical technician and prepares the student to manage pre-hospital emergencies. This course teaches the basics in airway management, CPR, bleeding and shock management. It also educates the student on the recognition and the management of medical and traumatic emergencies. Successful completion of this course qualifies the student to deliver primary pre-hospital care in emergencies. With proper licensing this program may allow the student to function on an ambulance, fire department, safety officer, park ranger, or other agencies until more advance pre-hospital care is available. The student must also complete 40 hours emergency department and ambulance clinicals.  
Prerequisite: No felony convictions, no medical restrictions. Course offered on campus.

**HL126  Emergency Medical Technician Specialist 12 CR**  
Successful completion of this course qualifies the student to deliver more advance care during an emergency and to be recommended for NREMT evaluation at the EMT-Specialist level. This course includes increased understanding of anatomy and physiology of common medical and traumatic emergencies. It will also increase the skills performed including: advance airway management, intravenous and intraosseous cannulation, and some medication administration. The student must also complete 40 hours emergency department and ambulance clinicals.  
Prerequisite: HL125. Course offered on campus.

**HL205  Emergency Medical Technician Paramedic I  12 CR**  
This course is the first part of a five semester certificate program to prepare a student to take the National Registry EMT Paramedic exam for licensing. EMT Paramedic is a healthcare professional prepared for a position with an Advance Life Support Agency, fire department, clinic, emergency department, or other agency. The program provides the scientific knowledge and advance technical skills needed to recognize, assess, and manage medical and/or traumatic emergencies. EMT-P I is focused on the anatomy and physiology of the human body, medical terminology, roles and responsibilities of the EMT-P, and ambulance operations. 550 clinical hours in an emergency department and advance life support ambulance are required during the five semesters. The student must possess a CPR and Michigan EMT Basic license or NREMT certificate, or be pending either.  
Prerequisite: HL125. Course offered on campus.

**HL206  Emergency Medical Technician Paramedic II  7 CR**  
The second part of a five semester certificate program to continue preparing a student to take the NREMT exam. EMT-P II is focused on Advance Airways, venous cannulation, medication administration, and respiratory emergencies.  
Prerequisite: HL205. Course offered on campus.

**HL207  Emergency Medical Technician Paramedic III 9 CR**  
The third part of a five semester certificate program to continue preparing a student to take the NREMT exam. Introduces the concepts, terminology, and modalities relative to cardiac emergencies. The third curriculum also starts to include most medical emergency recognition and management. The students participating in their clinical will be gaining experience in most skills and observance of real patients.  
Prerequisite: HL206. Course offered on campus.

**HL208  Emergency Medical Technician Paramedic IV 12 CR**  
The fourth part of a five semester certificate program to continue preparing a student to take the NREMT exam. EMT-P IV is focused on traumatic emergencies, neonatal, geriatrics, and other specialized areas of pre-hospital care. The students will continue their clinical experience and become proficient in their skills.  
Prerequisite: HL207. Course offered on campus.

**HL209  Emergency Medical Technician Paramedic V  5 CR**  
The final part of a five semester certificate program to prepare a student to take the NREMT exam and prepare the student at the professional levels for employment. The focus is designed to develop critical thinking skills through scenario based instructions. The student must have completed 450 hours of clinical time, have an 80% cumulative grade average, and pass all final classroom exams to be recommended for the National Registry EMT Paramedic exam.  
Prerequisite: HL208. Course offered on campus.

**HS – HISTORY**

**HS105  American History I 4 CR**  
This course begins with an overview of Native settlement patterns before the arrival of the Mayflower. It addresses the arrival of colonists to the eastern shore of North America, and their descendants who eventually waged the successful American War for Independence beginning in 1776. The formation of a new government, the acquisition of new territory, and the march toward fulfilling “manifest destiny” prior to the Civil War. This course comprises the themes addressed in this first, of two courses, detailing the persons, and events which are the history of the United States.  
Co-requisites: CS112 and EN111, or permission of instructor.  
Course offered on campus and online.
HS106  American History II  4 CR
An emerging nation convulsed by Civil War begins this course. Settlement of the west, Turner's "frontier thesis," the World
Wars which thrust the United States into global leadership, the '50s calm before the '60s social storm, and the contemporary era
conclude this sequential course overview of American History.
Prerequisite: HS105.  Course offered on campus and online.

HS109  History of World Civilization I  3 CR
This course is a survey of the history of World Civilization from its prehistoric roots through the Reformation Era. This study
will investigate the origin and development of cultural trends from the civilizations of the Americas, Asia, India, and the
Mediterranean through the era of European Feudalism; culminating in the emergence of modern Europe. This course will
include a study of political history, philosophy, and literature.
Co-requisites: CS112 and EN111.  Course offered on campus and online.

HS110  History of World Civilization II  3 CR
This course is a continuation of HS101 emphasizing political, economic, and cultural changes of the 18th century, the various
forms of nationalism, international socialism, and their influences on the 19th and 20th century, and the search for international
peace, with the increasing complexity of the emerging nations of the Third World. This course will include a study of political
history, philosophy, and literature.
Prerequisite: HS109.  Course offered on campus and online.

HS202  Michigan History  3 CR
This course introduces students to the general history of the State of Michigan from its days as a territory of the nation of France,
than Britain, and finally as a territory, and subsequently a state of the United States of America.
Prerequisites: EN111 and CS112.  Course offered on campus and online.

HS212  American Government I  4 CR
This course is a study of the processes and functions of national government. It includes a study of Federalism, political parties,
Constitutional principles, and the role of the citizen. It will also examine the ongoing relationship between the Federal
government and the Indian tribes.  Prerequisites: CS112 and EN111.  Course offered on campus and online.

HU – HUMANITIES

HU116  Art Appreciation  3 CR
This course offers a thematic and global approach to learning about art and art appreciation. Students will begin to learn about
the balance of Western and non-Western approaches to art, its purposes and functions, and will discover and explore the
diverse approaches of artists. Students will also learn to identify characteristics that unite cultural differences and those that
show distinction.  Prerequisite: None.  Course offered online.

JR – JOURNALISM

JR110  Introduction to Mass Media  4 CR
This course focuses on today's world of mass media industries and support businesses, as well as the legal, ethical, social,
global, and technological issues these businesses face every day.  An emphasis on mass media as a business helps students see
how economic concepts apply to the publishing industry in regards to books, newspapers, magazines and internet.
Prerequisite: minimum college placement test score.  Course offered on campus.

MA – MATH

MA101  Beginning Algebra I  4 CR
This course is designed for students with at least one year of high school algebra. It includes a review of basic mathematical and
algebraic skills and their applications, solving of equations, polynomial manipulations and first-degree factoring.
Prerequisite: AE109 with C or better, appropriate placement score less than three years old, or permission of Department Chair.
Co-requisite: ED101 is required if the student has completed less than 15 college credits or has a cumulative GPA less than 2.0.
Course offered on campus and online.

MA102  Beginning Algebra II  4 CR
This course is the continuation of MA 101.  Topics covered are graphing and functions, rational expressions, graphing linear
equations, inequalities, radical expressions, quadratic equations, and solving systems of equations.
Prerequisite: MA101 with C or better, or permission of Department Chair.  Co-requisite: ED101 is required if the student has
completed less than 15 college credits or has a cumulative GPA less than 2.0.  Course offered on campus and online.
MA114 Intermediate Algebra  4 CR
This course is designed for students with at least 1 year of high school algebra. It is a study of number systems, solving and graphing first-degree equations and inequalities, polynomials, radical and rational expressions, solving systems of linear equations and quadratic equations, and exponential and logarithmic functions. Prerequisites: MA102 with C or better, appropriate placement score less than three years old, or permission of Dept. Chair. Course offered on campus and online.

MA116 College Algebra  4 CR
This course is for business, life, and social science students who wish to transfer into a degree program. It is the study of inequalities, functions, graphs of linear, polynomial and rational functions, exponential and logarithmic functions, mathematics of finance, systems of equations and matrices, and an introduction to probability and sequences. Prerequisite: MA114 with C or better, appropriate placement score less than three years old, or permission of Dept. Chair. Course offered on campus and online.

MA118 Analytic Trigonometry  4 CR
This course is designed for students with a solid background in algebra. It is for students who wish to continue their study of mathematics and plan to transfer to a program which requires higher mathematical skills. It is a study and application of definitions and graphs of trigonometry functions, laws of sine and cosine, radians, solutions of right and oblique triangles, vectors, inverse trigonometry functions, trigonometry identities, solving trigonometry equations and applications. Prerequisite: MA116 with a C or better or permission of Department Chair. Course offered on campus.

MA206 Statistical Methods I  4 CR
This course is for students who wish to continue their study of mathematics and plan to transfer to a program which requires higher mathematical skills and/or the study of statistics. It is an introduction to the study of descriptive statistics, testing hypothesis, sampling, probability, distributions, statistical inference, correlation, and regression. Prerequisite: MA114 with a C or better or permission of instructor. Course offered on campus and online.

**NA – NATIVE AMERICAN STUDIES**

NA103 Native American Cuisine  3 CR
This course will explore various food sources from North, South, and Central America that may include the Aleutian Islands and Hawaii. The foundation will center on plants, animals, fish, and herbs to include their cultivation, preparation, and storage methods. Prerequisite: None. Course offered online.

NA110 Native Americans: Sharing Our Culture and Traditions  3 CR
This course provides a means of sharing cultural and traditional norms between the Native American Tribes of the United States. It demonstrates the diversity of the Native American ways of life, including cultural changes and continuity of traditions in present day Native American cultures. Prerequisite: None. Course offered online.

NA113 Native American Awareness  1 CR
This course is designed to provide an increased awareness and understanding of the Nishnaabe people of the past and present. Students will participate in group discussions in a talking circle format, supplemented with video presentations, guest speakers and/or field trips. Prerequisite: None. Course offered on campus and online.

NA117 Introduction to Native American Beading  2 CR
This course presents a hands-on approach to familiarizing the student with traditional Native American beadwork. Emphasis will be placed on beadwork styles of the Anishinaabe. Students will complete individual beadwork projects. Prerequisite: None. Course offered on campus.

NA125 History and Organization of Michigan Indian Tribes  4 CR
This course will examine the history of Michigan Indian Tribes (present and past) and their chronological relationship with the Federal and State Governments. Overviews of Tribal histories will include the Chippewa, Ottawa, Potawatomi, Menominee, Huron, Sac & Fox, & Miami Tribes. Co-requisite: EN111. Course offered on campus and online.

NA129 Native American Art and Artifacts: Cultural Interpretations  3 CR
This course explores the art and artifacts of Native American Tribes of the United States. The means of exploration includes visits to online museum exhibits thus employing a visual method of learning, and research of a Native American Tribe’s art and artifacts. Students will gain an understanding and appreciation of historical and contemporary Native American art. Co-requisite: EN111. Course offered online.
NA131  Nishnaabek Legends & Oral Traditions  3 CR
This course presents oral teachings of the Nishnaabe people through the use of audio and video presentation and guest speaking elders, supplemented by written texts. Emphasis will be on season-specific legends, (i.e. Wenebojo, Nanabojo, Nanabush) and various other teachings. This course offered during the winter season only.
Prerequisite: None. Course offered on campus.

NA132  People and the Land
Seasonal Life Ways  3 CR
This course studies the relationship between the Nishnaabe people and nature, focusing on their seasons, their ceremonies and the seasonally ordered progression of work. Students will participate in seasonal-specific field trips, supplemented with guest speakers, input from elders, and video presentations.
Prerequisite: None.
Course offered on campus.

NA136  Nishnaabek Clothing, Adornment & Handcrafts  3 CR
This course presents a hands-on approach to familiarizing the student with traditional Nishnaabek styles of clothing, adornment and other handcrafted items native to the Great Lakes region. Students will complete individual projects such as various types of beadwork, ribbon appliqué, leatherwork, basketry, quillwork, etc. Lab fee required.
Prerequisite: None. Course offered on campus.

NA154  Traditional Drumming and Singing I  3 CR
This course is designed for the beginner and is taught from a Traditional Anishinaabe perspective. It will introduce basic drumming and singing etiquette and techniques, starting with the teachings of the drum and progressing through a variety of song styles commonly used at pow-wows and social gatherings.
Prerequisite: None. Course offered on campus.

NA155  Traditional Drumming and Singing II  3 CR
This course is a continuation of NA154 and expands upon different styles of song and dance with emphasis on pow-wow drumming and singing. Students will be introduced to other drums used by the Anishnaabek and will receive traditional teachings on their origin and use.
Prerequisite: NA154 or permission of instructor. Course offered on campus.

NA201  Native American Contributions to Society  3 CR
This course provides students with a foundation in the philosophical and historical roots of Native American contributions to society as well as knowledge of current contributions. Students analyze topics such as the Native American Path to Industrialism, Native American Agriculture Technology, and Liberty Annuities & the Noble Savage. Students synthesize the knowledge of theories, structures, and practices to develop an understanding of Native American contributions to society. Students will be expected to reflect on their experiences, building and applying knowledge, participating in learning and making theoretical and practical contributions. Prerequisite: NA113. Course offered online.

NA205  Tribal Law  3 CR
This course will explore such areas as the structure of Tribal government, Tribal sovereignty, treaties, civil and criminal court jurisdiction in Indian country, Tribal resources, economic development, taxation and regulation, rights of individual Indians and various federal laws and court cases concerning and affecting Tribes and their members.
Prerequisites: NA125 and EN111, or permission of instructor. Course offered on campus.

NA213  Contemporary Native American Issues  3 CR
This course is an examination of current Native American achievements, issues, problems and events. Students are introduced to Native and non-Native newspapers, magazines, periodicals and publications which report on events affecting Native Americans on an international, national, regional & local level.
Prerequisite: EN111 or permission of instructor. Course offered online.
NA219  Tribal Government and Economic Issues  3 CR  
This course is an examination of Tribal government and current tribal economic development issues. Course topics include, but are not limited to structure and roles of reservation governments, gaming and other Tribal business enterprises.  
Prerequisites: NA125, EN111 or permission of instructor.  
Course offered online.

NI – NISHNAABEMWIN INSTITUTE

NI104  Nishnaabek Cultural Experience I  3 CR  
This course is designed to support the NLII Summer Program through cultural immersion and instructional activities. Students will participate in talking circles, ceremonial activities, field trips, native video presentations and receive traditional teachings from Nishnaabe elders and other speakers knowledgeable in the Nishnaabe culture.  
Prerequisite: None.  
Course offered on-campus.

NI105  Nishnaabek Cultural Experience I/Speaking  3 CR  
This is a participative course in which students receive traditional teachings of the Ojibwe Clan Systems, i.e. Doodem. There will be presentations and workshops by guest speakers and elders knowledgeable in the Anishinaabe customs and traditions. This course will be taught with the use of 80% Ojibwe language. This course satisfies requirements for NI104 when taken in conjunction with Year 1-Nishnaabemwin Language Instructors Institute.  
Prerequisite: None.  
Course offered on-campus.

NI106  Nishnaabek Cultural Orthography/Grammar-Basic  3 CR  
This course will introduce the student to the Nishnaabemwin language, with emphasis on basic phonics, grammar, vocabulary and orthography. Exercises in pronunciation, aural comprehension, oral skills, elementary composition and translation will be utilized. This course provides the student with cultural information as to the “root” of the words, enhancing the students’ knowledge and understanding of Nishnaabek culture and concepts.  
Prerequisite: None.  
Course offered on campus.

NI107  Nishnaabek Cultural Orthography/Speaking  3 CR  
In this course students will be introduced to the basic grammar and structure, which will help with the pronunciation and comprehension of the Ojibwe language, needed for courses NI105 and NI118. The course will be taught by 80% immersion in the Ojibwe language. This course satisfies requirements for NI106 when taken in conjunction with Year 1-Nishnaabemwin Language Instructors Institute.  
Prerequisite: None.  
Course offered on campus.

NI108  Ojibwe Language Immersion-Basic 6 CR  
The students will be introduced to the Nishnaabemwin language as opposed to the vocabulary since language is all the words you use when you speak. Vocabulary is all the words students memorize instead of speaking. Students will become familiar with the sound and flow of the language and the development of the conversational patterns.  
Prerequisite: None.  
Course offered on campus.

NI111  Dagwaagi/Biboon/Minookami—Fall/Winter/Spring Weekend Immersion – Basic  3 CR  
This course of three weekend Immersion Sessions will reinforce what the students have learned in order to maintain previously learned language. The students will also be introduced to the general principals of second language teaching stressing development of listening comprehension and speaking skills. The practicum component of this course includes work/assignments to be done in-between the workshop sessions.  
Prerequisite: None.  
Course offered on campus.

NI118  Ojibwe Language Immersion/Speaking  3 CR  
This is an introductory course in basic eastern Ojibwe language speaking (Anishnaabemdaa Eta). It will include dialog to express: Doodem/Ojibwe Clan System, weather conditions, sacred words used in ceremonies, and everyday phrases used at home or office. This course will be taught with use of 80% of Ojibwe language. This course satisfies requirements for NI108 when taken in conjunction with Year 1-Nishnaabemwin Language Instructors Institute.  
Prerequisite: None.  
Course offered on campus.

NI204  Nishnaabek Cultural Involvement & Research – Intermediate  3 CR  
This course involves the continued participation of students in cultural activities such as ceremonies, field trips, and visits to communities which have an abundance of Nishnaabemwin speakers. Language learned in the other courses will be applied through various assignments and activities.  
Prerequisite: Completion of NLII Basic Year I or permission of instructor.  
Course offered on campus.

NI206  Nishnaabek Cultural Orthography/Grammar – Intermediate  3 CR  
This is a continuation of NI104 and will involve further study of the language with more emphasis on sentence structure and patterns. It will include written exercises and is intended to promote oral fluency of everyday conversation. The student will continue to learn the “root” origin of words which will provide a deeper understanding of Nishnaabek Culture and perspectives.  
Prerequisite: Completion of NI118 Basic Year I or permission of instructor.  
Course offered on campus.
**NI208  Ojibwe Language Immersion – Intermediate  3 CR**
Students will continue to learn through various activities such as memory games, Medicine Wheel Teachings, and readings from Nishnaabe authors. Language will be reinforced through the integrated approach with other courses within the program. Opportunities for review and expansion of grammar and vocabulary will be given to ensure continuous learning of the language. Prerequisite: Completion of NI211 Basic Year I or permission of instructor.  Course offered on campus.

**NI209  Nishnaabe Language Teaching Methods  3 CR**
This course is an introduction to the general principles of teaching Nishnaabemwin, stressing development of listening comprehension and speaking skills.  In lesson planning, focus will be on structural and communicative approaches.  Prerequisite: Completion of NI211 Basic Year I or permission of instructor.  Course offered on campus.

**NI211  Dagwaagi/Biboon/Minookami—Fall/Winter/Spring Weekend Immersion—Intermediate  3 CR**
This is a continuation of the topics of NI111 with further emphasis on the development of units and activities using the materials produced in the previous NI111 immersion weekends.  The practicum will encourage the students to develop their skills in originality and imagination yet keeping within the bounds of second language teaching criteria. Incorporation of learned concepts will also be encouraged.  The idea is to make learning fun and exciting.  A supervised practicum will provide the opportunity for teaching a class at the Basic or Introductory level to peer students during this course. Students will prepare three 30-minute lessons for presentation during each weekend session.  Prerequisite: NI111.  Course offered on campus.

**NI212  Dagwaagi/Biboon/Minookami—Fall/Winter/Spring Weekend Immersion—Advanced  3 CR**
Students will attend (3) three scheduled seasonal weekend Immersion sessions and participate in a special class project(s) to design and develop various types of Ojibwe language teaching resource materials. Students will utilize intensive written Nishnaabenmwin language and orthography skills. Nishnaabek teaching methods and principles learned from the NLII courses will also be utilized. Prerequisite: NLII Year II Intermediate or permission of instructor.  Course offered on campus.

**NI224  Nishnaabek Cultural Orthography/Grammar – Advanced  3 CR**
This course is the advanced study of the structure of the Nishnaabemwin Language.  Reading comprehension exercises will be utilized as well as other activities incorporating the four communicative styles of language acquisition previously learned.  Further in-depth study of the language will focus on advanced grammar structure as well as research on the “true meaning” of various words and phrases.  Prerequisite: NI206.  Course offered on campus.

**NI228  Ojibwe Language Immersion/Special Projects – Advanced  6 CR**
Students will have the opportunity to participate in a “total immersion experience” via an exchange visit to members of a community where there is yet a fullness of the language. Language learning will take forms of participating and communicating in the daily activities of the family or sponsor.  Daily journals written in the language will be kept and used as a reporting tool upon return.  These will also be used for certain aspects of the Advanced Nishnaabemwin Language & Orthography course.  Intensive emphasis will be on oral skills, however, written exercises and readings will be utilized as well as other activities.  Course offered on campus.  Prerequisite: NI208.

**NI229  Teaching Methods and Curriculum Development – Advanced  3 CR**
Consolidation and extension of previously learned material in Parts 1 & 2 will be focused in this course.  Students will have the opportunity to learn to develop curriculum using the course spiral process outlined at the onset of the Nishnaabemwin Language Instructors Institute Program.  Incorporation and utilization of culturally relevant material and activities will be encouraged.  Course offered on campus.

**NI231  Nishnaabe Child Development and the Classroom  3 CR**
Incorporating what has been learned in the Medicine Wheel Teachings, students will examine the four aspects (physical, mental, emotional, and spiritual) of children and youth.  Language teacher interaction, development of student rapport, and classroom management will be emphasized.  The Seven Grandfather teachings will be a model used in the development of culturally relevant material.  Course offered on campus.

---

**NL – NATIVE LANGUAGE**

**NL101  Introduction to the Anishinaabe Language I  1 CR**
This is an introductory course that presents basic concepts of conversation in the Anishinaabe language.  Students will have the opportunity to increase their vocabulary, learn to pronounce words correctly, and understand that the Anishinaabe culture is within the language.  Prerequisite: None.  Course offered on demand.

**NL102  Introduction to the Anishinaabe Language II  1 CR**
This is a continuation of NL101 Introduction to the Anishinaabe Language I.  This course continues to build on the basic concepts of conversation in the Anishinaabe language.  Students will increase their vocabulary, learn to pronounce and read and write in Anishinabemowin.  Students will also deepen their understanding of Anishinaabe culture and language. Prerequisite: None.  Course offered on demand.
**NP – NISHNAABEMWIN PANЕ PROGRAM**

**NP141  Basic Immersion I  6 CR**
This course, delivered entirely in Nishnaabemwin, is designed for both new and continuing Nishnaabemwin learners. Through a variety of techniques including story-telling, the instructor creates for the students a context in which the language is heard. For many students, this may be the first time they have heard the language used for an extended period. Students will have the opportunity to become familiar with the sound of Nishnaabemwin. It is expected that the student will begin to comprehend the broad context of the instructor's narrative without having to resort to grammatical study. Prerequisite: None. Course offered on campus.

**NP142  Basic Immersion II  6 CR**
This course is a continuation of NP141. It is delivered entirely in Nishnaabemwin and focuses on hearing, listening and comprehension. Through story-telling the instructor facilitates the student's ability to understand general meaning and significant events within a story. Through the continued development of immersion listening skills, the student's comprehension is further improved allowing the acquisition of a broadened core vocabulary and an enhanced ability to recognize meaning in natural speech. Prerequisite: None. Course offered on campus.

**NP143  Basic Immersion III  6 CR**
This course, delivered entirely in Nishnaabemwin, is a continuation of NP141 and NP142. Using progressively higher levels of speech, sentence structure and vocabulary, the instructor continues to promote the development of the student's immersion listening skills and comprehension. The student will demonstrate an understanding of increasingly subtle nuances in each story, and will begin to respond appropriately, in either English or Nishnaabemwin, to questions from the instructor. Prerequisite: None. Course offered on campus.

**NP161  Introduction to Immersion I  8 CR**
This course team taught entirely in Nishnaabemwin will focus on introducing the learner to language immersion, familiarizing the learner to the techniques used by the instructors in an immersion environment and building the confidence of the learner to remain committed to the immersion approach to second language acquisition. The focus will initially focus on hearing the language used in a wide variety of contexts to develop an ability to recognize the sound, intonation and rhythm of the speech of fluent speakers. Hearing the language is a prerequisite to listening to the language for comprehension. Prerequisite: None. Course offered on campus.
NP162  Introduction to Immersion II  8 CR
This course, delivered entirely in Nishnaabemwin, will continue the immersion techniques introduced in NP161. Instructors will maintain an immersion environment, develop the student's immersion listening skills, and continue to strengthen the student's commitment to the immersion approach to second language acquisition. The focus will remain on maximizing the student's hearing the language used in a wide variety of contexts in order to develop an ability to recognize the sound, intonation and rhythm of speech of fluent speakers. Hearing the language is a prerequisite to listening to the language for comprehension. Prerequisite: None. Course offered on campus.

NP163  Introduction to Immersion III  8 CR
This course, delivered entirely in Nishnaabemwin, will conclude the student's introduction to language immersion education presented in NP161 and NP162. Instructors will maintain an immersion environment and continue building the confidence of the student to understand and remain committed to the immersion approach to second language acquisition. The focus will remain on maximizing the student's hearing the language used in a wide variety of contexts in order to develop an ability to recognize the sound, intonation and rhythm of the speech of fluent speakers. Instructors will monitor individual students' progress and adjust the level of language used to meet each student's level of acquisition. Prerequisite: None. Course offered on campus.

NP241  Intermediate Immersion I  6 CR
This course, delivered entirely in Nishnaabemwin, is designed to increase the listening comprehension of the student beyond the basic level. The student will become more confident in their ability to comprehend the speech of a fluent speaker. The student will continue the development of their ability to respond to and interact with the instructor. Prerequisite: None. Course offered on campus.

NP242A  Intermediate Immersion II  6 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP241. It is designed to further develop the student's listening comprehension. The student will be able to understand in greater detail the emotive and descriptive nuances in the speech of a first-speaker, as well as be able to broadly describe in English the subject matter presented by the instructor. The student will exhibit a greater facility to respond appropriately in either Nishnaabemwin or in English to the instructor. Prerequisite: None. Course offered on campus.

NP243A  Intermediate Immersion III  6 CR
This course, taught entirely in Nishnaabemwin, is a continuation of NP242A. The course continues to increase the comprehension level of the student. The student will develop an increased ability to understand the finer points of what is being communicated, and an emergent ability to translate from Nishnaabemwin to English will show itself in the student. Prerequisite: None. Course offered on campus.
NP245A  Intermediate Immersion IV  6 CR
This course, taught entirely in Nishnaabemwin, is a continuation of NP243A. The course continues to increase the comprehension level of the student to an intermediate level. The student will continue to develop his/her understanding of the messages being communicated by first-speakers of Nishnaabemwin and be able to better respond to questions offered in the language. The student will be able to demonstrate an increased facility to broadly translate from Nishnaabemwin to English by correctly identifying character(s), setting, story sequence and meaning. Prerequisite: None. Course offered on campus.

NP247A  Intermediate Immersion V  6 CR
This course, taught entirely in Nishnaabemwin, is a continuation of NP245A. The course continues to increase the comprehension level of the student to an intermediate level. The student will continue to develop his/her understanding of the messages being communicated by first-speakers of Nishnaabemwin and be able to better respond to questions offered in the language. The student will be able to demonstrate an increased facility to broadly translate from Nishnaabemwin to English by correctly identifying character(s), setting, story sequence and meaning. Prerequisite: None. Course offered on campus.

NP249A  Intermediate Immersion VI  6 CR
This course, taught entirely in Nishnaabemwin, is a continuation of NP247A. The course continues to increase the comprehension level of the student to an intermediate level. The student will continue to develop his/her understanding of the messages being communicated by first-speakers of Nishnaabemwin and be able to better respond to questions offered in the language. The student will also be able to demonstrate an increased facility to broadly translate from Nishnaabemwin to English by correctly identifying character(s), setting, story sequence and meaning. Prerequisite: None. Course offered on campus.

NP251B  Advanced Immersion I  6 CR
This course, delivered entirely in Nishnaabemwin, will continue to increase the student's comprehension level and begin to facilitate the student's production of speech. The decision to speak in Nishnaabemwin is still the choice of the student. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP252B  Advanced Immersion II  6 CR
This course, delivered entirely in Nishnaabemwin, culminates the four-year Nishnaabemwin Pane Immersion Program. Students will understand fully what the instructor is saying and will be able to translate accurately the general content of that speech. Students will be able to engage in dialogues with the instructor and answer appropriately questions posed by the instructor. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP253B  Advanced Immersion II-B  6 CR
This course is delivered entirely in Nishnaabemwin. Students will receive comprehensive input through storytelling and other activities that the instructors deem necessary to facilitate the students’ ability to understand general meaning and significant events within a story/activity. Prerequisite: None. Course offered on campus.

NP253C  Advanced Immersion III  6 CR
This course, delivered entirely in Nishnaabemwin, initiates the fifth-year Nishnaabemwin Pane Immersion Program. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP254C  Advanced Immersion IV  6 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP253C. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP255C  Advanced Immersion V  6 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP254C. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP256D  Advanced Immersion VI  6 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP255C and initiates the sixth year Nishnaabemwin Pane Immersion Program. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.
NP257D Advanced Immersion VII 6 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP256D. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP258D Advanced Immersion VIII 6 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP257D and completes the sixth and final year of Nishnaabemwin Pane Immersion Program. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP261 Listening Comprehension I 8 CR
This course, delivered entirely in Nishnaabemwin, builds on the first year immersion experience. Instructors will create an immersion environment designed to increase the listening comprehension of the student beyond the introductory level while continuing to build the confidence of the learner to understand and remain committed to the immersion approach to second language acquisition. The instructors will use a variety of techniques to maximize the student's hearing of the language. Hearing the language used in a wide variety of contexts will lead to an increased capacity to comprehend the speech of fluent speakers. Instructors will monitor individual students' progress and adjust the level of language used to meet each student's level of acquisition. Prerequisite: None. Course offered on campus.

NP262 Listening Comprehension II 8 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP261 Intermediate Immersion I. Prerequisite: None. Course offered on campus.

NP263 Listening Comprehension III 8 CR
This course, delivered entirely in Nishnaabemwin, is a continuation of NP262. Additional hours with the instructor(s) and/or fluent speakers outside of the weekend experience will be arranged by the student to generate additional hours of comprehensible input. Prerequisite: None. Course offered on campus.

NP271A Conversational Immersion I 8 CR
This course, team taught in Nishnaabemwin, builds on the first two years of course offerings and weekend immersions. The student will exhibit a higher level of listening comprehension and demonstrate a greater facility to respond to and interact with the instructors in either Nishnaabemwin or in English. Additional hours with the instructor(s) and/or fluent speakers outside of the weekend immersions will be arranged by the student to generate additional hours of comprehensible input. Prerequisite: None. Course offered on campus.

NP272A Conversational Immersion II 8 CR
This course, team taught in Nishnaabemwin, is a continuation of NP271A. The student will exhibit a higher level of listening comprehension and demonstrate a greater facility to respond to and interact with the instructors in either Nishnaabemwin or in English. Additional hours with the instructor(s) and/or fluent speakers outside of the weekend immersions will be arranged by the student to generate additional hours of comprehensible input. Prerequisite: None. Course offered on campus.

NP273A Conversational Immersion III 8 CR
This course, team taught in Nishnaabemwin, is a continuation of NP272A. The student will exhibit a higher level of listening comprehension and demonstrate a greater facility to respond to and interact with the instructors in either Nishnaabemwin or in English. Additional hours with the instructor(s) and/or fluent speakers outside of the weekend immersions will be arranged by the student to generate additional hours of comprehensible input. Prerequisite: None. Course offered on campus.

NP281B Comprehensive Immersion I 8 CR
This course, team taught in Nishnaabemwin, culminates the Nishnaabemwin Pane Immersion Program and builds on the first three years course and weekend immersions. The students listening comprehension will be at an extremely high level. The production of speech will begin to emerge spontaneously and comfortably. Additional hours with the instructor(s) and/or fluent speakers outside of the weekend immersions will be arranged by the student to generate additional hours of comprehensible input. Prerequisite: None. Course offered on campus.

NP282B Comprehensive Immersion II 8 CR
This course, team taught entirely in Nishnaabemwin, is a continuation of NP281B. Students will understand fully what the instructor(s) is saying and will be able to translate accurately the general content of that speech. Students will be able to engage in dialogues with the instructor and answer appropriately questions posed by the instructor(s). Additional hours with the instructor(s) and/or fluent speakers outside of the weekend immersions will be arranged by the student to generate additional hours of comprehensible input. Prerequisite: None. Course offered on campus.
NP283B Comprehensive Immersion II-B 8 CR
This course is delivered entirely in Nishnaabemwin; it is a continuation of NP282B. Students will continue to receive comprehensive input through storytelling and other activities that the instructors deem necessary to facilitate the students’ ability to understand general meaning and significant events within a story/activity. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP283C Comprehensive Immersion III 8 CR
This course, team taught entirely in Nishnaabemwin, is a continuation of NP283B and is the first course of Year 5 of the Nishnaabemwin Pane Immersion Program. Instructors and students meet for five weekend sessions during the semester and spend a total of twenty-four hours of immersion over two and one-half days per weekend. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP284C Comprehensive Immersion IV 8 CR
This course, team taught entirely in Nishnaabemwin, is a continuation of NP283C. Instructors and students meet for five weekend sessions during the semester and spend a total of twenty-four hours of immersion over two and one-half days per weekend. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP285C Comprehensive Immersion V 8 CR
This course, team taught entirely in Nishnaabemwin, is a continuation of NP284C. Instructors and students meet for five weekend sessions during the semester and spend a total of twenty-four hours of immersion over two and one-half days per weekend. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP286D Comprehensive Immersion VI 8 CR
This course, team taught entirely in Nishnaabemwin, is a continuation of NP285C and is the first course of Year 6 of the Nishnaabemwin Pane Immersion Program. Instructors and students meet for five weekend sessions during the semester and spend a total of twenty-four hours of immersion over two and one-half days per weekend. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP287D Comprehensive Immersion VII 8 CR
This course, team taught entirely in Nishnaabemwin, is a continuation of NP286D. Instructors and students meet for five weekend sessions during the semester and spend a total of twenty-four hours of immersion over two and one-half days per weekend. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.

NP288D Comprehensive Immersion VIII 8 CR
This course, team taught entirely in Nishnaabemwin, is a continuation of NP287D and is the final weekend immersion course of Year 6 of the Nishnaabemwin Pane Immersion Program. Instructors and students meet for five weekend sessions during the semester and spend a total of twenty-four hours of immersion over two and one-half days per weekend. Students with high comprehension listening skills will continue to develop those skills by interacting with first-speaker instructors and demonstrating their translation skills. Instructors will utilize story-telling, skits and word games incorporating a variety of language usage in a number of social and cultural settings. Lab hours are additional hours spent with fluent speaker(s). Prerequisite: None. Course offered on campus.
**NS - NATURAL SCIENCE**

**NS101  Environmental Science (Lab required)  4 CR**
This course explores the varied aspects of mankind’s relationship to the environment. This course will provide students with the opportunity to learn about the environment. Concepts of Traditional Native American methods, ecology and modern science will be explored as ways to solve problems dealing with the environment. It will also deal with some identification and ecology of the local plant and animal communities along with the traditional uses of these communities by the Anishnaabek.
Co-requisite: EN111. Course offered on campus and online.

**NS103  Introduction to Natural Resource Management (Lab required)  4 CR**
This course deals with classification and description of renewable and non-renewable resources with emphasis on their ecological value to ecosystems. It is an introduction to and discussion of major resource problems.
Prerequisites: EN111, NS101 with a C or better. Course offered on campus.

**NS107  Introduction to Earth Science  4 CR**
This course is designed to give students a thorough exposure to basic concepts and processes related to the Geosphere, the Hydrosphere, the atmosphere and Universe. Understanding the major thesis of Earth Science and the application of the knowledge to interpret and analyze natural phenomena will be a major goal of this course. Prerequisite: EN111 with a C or better. Course offered on campus.

**OE - OFFICE EDUCATION**

**OE112  Medical Coding and Billing I  3 CR**
This course introduces the student to the coding of medical diagnoses and procedures using ICD-10 and CPT coding manuals. It includes basic insurance concepts, terminology and practices used by health insurance carriers.
Prerequisite: None. Course offered on campus.

**OE113  Medical Coding and Billing II  3 CR**
This course continues the study of billing and coding. It introduces the student to an actual office setting in using the ICD-10 and CPT coding on the HCFA 1500 forms. Many hands-on classroom activities will assist the student in applying the knowledge.
Prerequisite: OE112. Course offered on campus.

**OE114  Pharmacy Technician  3 CR**
This is an introductory course in pharmacy technology that offers professional training in the following areas: computer programs, pharmaceuticals, customer service and patient care. Upon successful completion of this course students will have the option of taking the Michigan Certified Pharmacy Technician Exam.
Co-requisites: SI112, MA101, and EN111. Course offered on campus.

**OE121  Office Procedures  3 CR**
This course deals with general office duties, including efficient procedures for handling mail, telephone, office supplies and equipment, and records management. Time management and human relation aspects are emphasized.
Prerequisite: CS121. Course offered on campus.

**OE203  Integrated Office  4 CR**
This capstone class is designed as a culminating activity at the end of the Associate of Applied Science Office Administration program. Students will prepare documents and complete tasks similar to those required in a technologically advanced office. To be taken last semester of studies. Prerequisite: This is a capstone course, permission of instructor. Course offered on campus.

**PE - PHYSICAL EDUCATION**

**PE104  Weight Training and Conditioning  2 CR**
This course will provide students with an awareness of the importance of developing and maintaining a personal fitness program. Students will be provided basic information on exercises designed to strengthen small and large muscle groups and improve cardiovascular endurance. Students will be trained on the proper use of various exercise equipment and how to measure and chart increases in endurance. Prerequisite: None. Course offered on campus.
PE105  Functional Fitness (Beginning Exercise)  2 CR
This exercise program is designed for the student that has lead a sedentary life style and now wants to start a healthier life style. This course will assist in weight loss and/or better body composition while strengthening the confidence of the student. Students will be introduced to gradual but regular exercise habits. The intensity of exercise will vary depending on the student’s level of fitness. Prerequisite: None. Course offered on campus.

PE108  Outdoor Hiking  2 CR
This course is designed to enable the student to engage in outdoor hiking as a means of developing physical and mental fitness. Prerequisite: None. Course offered on campus.

PS - PHYSICAL SCIENCE

PS112  Concepts of Physics (Lab required)  4 CR
This course is designed to give students a thorough exposure to basic physical concepts. The course will provide a basic training in fundamental physical phenomena and their applications. An introduction of the principals involving mechanics, electromagnetism, waves, optics and thermodynamics will be presented in lecture, demonstration and hands-on activities. Prerequisite: MA102 with a C or better. Course offered on campus.

PY - PSYCHOLOGY

PY101  Introduction to Psychology  4 CR
This course is a general introduction to the scientific study of behavior and mental processes. The study of psychology is presented as an attempt to understand the "mystery of human behavior" and includes a survey of basic topics such as perception, learning, human development, psychological disorders, psychotherapy, and systems of psychology. Co-requisite: EN111 or college level placement test score less than three years old or permission of Department Chair. Course offered on campus and online.

PY205  Abnormal Psychology  3 CR
This course is designed to examine the characteristics, etiology, and treatment of a wide range of mental, emotional, and behavioral disorders according to the DSM-IV diagnostic categories. The socio-historical origins of our concepts of abnormality and the social significance of maladaptive behavior are included. Prerequisite: PY101. Co-requisite: EN112. Course offered on campus and online.

PY208  Counseling Theories and Techniques  3 CR
This course focuses on the key concepts of contemporary counseling theories and the techniques and methods that are specific to each theoretical approach including those used in traditional Native American healing. Special emphasis is placed on the characteristics of effective counselors, the ethical guidelines affecting the practice of counseling, and the development of an individual philosophy of counseling. Prerequisite: PY101. Co-requisite: EN112. Course offered on campus and online.

PY214  Developmental Psychology  3 CR
This course is designed to explore human growth and development through all stages of life from conception through death. Included are concepts of physical, intellectual, personality and social development as well as issues and concerns relevant to each stage of life. Prerequisite: PY101. Co-requisite: EN112. Course offered on campus and online.

SI - SCIENCE

SI105  Introduction to Forest Ecology and Natural Resource Management  3 CR
In this course, students will explore historic and modern forest management practices, forest ecology, disturbance factors, soils, common forest types, seral stages and methods to prevent environmental damage. This course will also teach students how to better use natural and renewable resources the earth and sun provide. Students will learn systems, through investigative activities and field trips, of how to insure these resources remain available into the future. Prerequisites: None. Course offered on demand.

SI112  Medical Terminology  3 CR
This course is designed to furnish the basic tools necessary for building a medical vocabulary for students wishing to enter a medical field. It involves analyzing the structure of medical terms by learning their roots, prefixes and suffixes, as well as learning to identify, spell, define and properly use those terms and pertinent medical abbreviations. Prerequisite: None. Course offered on campus and online.
SO103  Community Support Systems  3 CR
This course explores the functions of community support systems, support systems personnel, community social issues and problems addressed by community support personnel with special emphasis on issues of particular concern to Native Americans. We will also gather information about the community service agencies in our area and build our own resource book for our community, again with the emphasis on Native issues. The majority of this course, because of the medium, will be reading, community support job descriptions, professional interviews, and web based research.
Co-requisite:  EN111.  Course offered online.

SO106  Introduction to Sociology  4 CR
This course is designed to examine human behavior in the socio-cultural setting and to evaluate the forces which act upon and shape that behavior. Special attention is given to the interaction of individuals in relationships with other groups and with larger social institutions. Native American issues and experiences will be incorporated as feasible and appropriate.
Co-requisite:  EN111 or college level placement test score or permission of Department Chair.  Course offered on campus and online.

SO203  Interpersonal/Intercultural Relations for Managers  3 CR
The focus of this course is developing effective communication strategies in diverse social and cultural systems within the modern workplace.  This course will address several key workplace issues, such as how to create and manage a business enterprise in which both the quality of customer service and employee morale/performance are at a level of peak performance. Other issues this course will address are: winning and maintaining both customer and employee allegiance, teamwork, and how to motivate a culturally and socially diverse employee base.  Prerequisite:  EN111.  Course offered online.

SO204  Social Problems  3 CR
This course is a survey of selected contemporary problems in American society from the perspective of sociological concepts and orientations which underlie an understanding of human behavior.  It begins by focusing on problems of personal concern to students and moves to an examination of broader societal problems in an effort to illuminate the social forces that have shaped the social problems as well as the factors that have shaped the students’ individual views of those problems.  Native American issues and experiences will be incorporated as feasible and appropriate.
Prerequisite:  SO106 and EN111.  Course offered on campus and online.

SO206  Sociology of Death and Dying  3 CR
This course will explore death, dying, and bereavement as well as other losses that we experience in life from a sociological perspective. Trends in attitudes, coping, legal and moral issues will be covered from a cultural and historical perspective.
Prerequisite:  SO106 and EN111.  Course offered on campus.

SO209  Family Systems  3 CR
This course is designed to explore America’s diverse and changing family systems in terms of structure, function and ethnicity in an attempt to provide both personal and intellectual understanding of the importance of families as the crucibles in which our humanity is born, nurtured, and fulfilled. Issues specific to families such as marriage, parenting, divorce, and work are included along with the influences of the economy and social policy on family life.
Prerequisite:  SO106 and EN111.  Course offered on campus and online.

SO212  Sociology of Women  3 CR
This course will cover the history and future of women and feminism including its political roots and objectives.  It will also explore how race, class, and other social hierarchies define a woman’s role and feminism.
Prerequisite:  SO106 and EN111.  Course offered on campus.

SO213  Communication/Conflict Resolution  3 CR
This course will provide a cultural perspective, with an emphasis on American Indian approaches, on the nature of conflict and the various methods, used to resolve conflict.  While the beginning of the course will include a brief overview of the history and content of the emerging field of conflict resolution, the overall focus will be interpersonal conflict between individuals and groups of individuals. Students will learn techniques of communication, such as active listening, in order to be prepared to de-escalate potential conflicts that may occur in their work and personal life. Significant issues that impact both the theory and practice of conflict resolution, such as neutrality, settlement or compromise vs. structural change will be discussed.
Prerequisite:  EN111.  Course offered Online.
ORGANIZATION OF THE COLLEGE

Bay Mills Community College is governed by the Bay Mills Community College Board of Regents. The current members and their tribal affiliations are as follows:

**Board of Regents**

Teeple, Dwight………………………………………………………. Chairperson
Member, Bay Mills Indian Community

Parish, Gerald……………………………………………Vice Chairperson
Member, Bay Mills Indian Community

Carrick Sr., Levi……………………………………….. Treasurer
Member, Bay Mills Indian Community

Lufkins, John Paul……………………………………..Secretary
Member, Bay Mills Indian Community
