7. THE POLICY

300.212 BMCC REMOTE WORK POLICY

I. Purpose

The purpose of this policy is to allow Bay Mills Community College (BMCC) employees to work at alternate work locations for part of their workweek. BMCC acknowledges benefits for both the employee and the employer for working remotely, including cost-effectiveness, mental health benefits, increased productivity, reduction in turnover, and improved employee morale. Therefore, BMCC will implement a remote work policy and grant approval for remote work assignments in certain situations in accordance with the remote work procedures as detailed in Appendix A.

II. Scope

This policy applies to BMCC employees. Remote work is a voluntary work alternative that is appropriate for some employees and some jobs but not all positions. No BMCC employee is entitled to or guaranteed the opportunity to work remotely. Certain categories of positions are ineligible for remote work.

III. Policy

It is the policy of BMCC to provide for the administration of a remote work program, which permits remote work arrangements when it is in the best interests of the college.

BMCC encourages all supervisors to review the responsibilities of their departmental unit and, when appropriate, allow their employees to work remotely when the mission of the department can be accomplished without being physically present in the workplace.

Employees who are allowed to work remotely must comply with all BMCC rules, policies, practices, and instructions including following college approved security procedures to ensure confidentiality and security of data. Employees must safeguard college information used or accessed while working remotely, in accordance with the college's policies and federal laws and regulations (FERPA, HIPAA, Federal Financial Aid, etc.). BMCC employees who work remotely understand that violation of BMCC policies may result in termination of remote work privileges and discipline.

Remote work does not change the basic terms and conditions of employment with the College. Remote work assignments do not change an employee's classification, compensation, or benefits. The accrual and charging of leave time is subject to the same policies and procedures applicable to non-remote work employees.

The employment relationship between the College and each of its employees may be terminated in accordance with applicable policies found in the BMCC Personnel Manual. Remote work assignments are not contracts or promises of employment. Nothing in a remote work assignment guarantees employment for any specific term, nor alters the current nature of employment.

This policy is at the College's discretion and the opportunity to work remotely may be withdrawn at any time. The Remote Work Agreement may be modified or terminated for performance concerns, changing business needs, by employee request, or any other non-discriminatory or retaliatory reason. Employees who are approved for remote work will be required to sign a Remote Work Agreement with the College consistent with this Policy (see Appendix C).

IV. Emergencies

In the event of emergency, the President is authorized to establish remote work arrangements with qualified employees for a limited duration to maintain college operations. Emergencies are defined as, but not limited to pandemics, fire, weather events or other significant disruption to college facilities or the physical operations of departments. Such arrangements are intended to allow for effective response to such disruptions and to maintain critical functions, operations and services. These remote work arrangements are to be maintained only until normal operations can be restored at the central workplace. Employees should still complete and submit remote work agreements in this situation.

APENDIX A
BMCC REMOTE WORK POLICY PROCEDURES

- (1) Remote work is defined as one or two regularly scheduled work days per week where an employee completes all work assignments from home.
- (2) Remote work is not an alternative to personal or vacation leave, nor is it sporadic.
- (3) **Eligibility.** An employee with a superior work and attendance record who can successfully work remotely.
- (4) **Ineligibility.** Certain positions are not eligible for remote work and may include:
 - a. Supervisors, department heads, and others who must be on-site to provide supervision, mentorship, and guidance.
 - b. Work positions that must be performed on-site (reception staff, maintenance staff, etc.).
 - c. Administrative positions that must be present on campus (President and others).
- (5) **Authorization.** The supervisor and President must authorize all remote work assignments. The supervisor may deny approval for any employee who was unsuccessful in a prior remote work arrangement, has a poor attendance record, or is otherwise unable to complete their work.
- (6) **Departmental Staffing.** Each department shall have at least one departmental member in the office every day of the week, and there should be at least one day each week that ALL members of the department are present in the office. All persons on an approved remote work schedule must be available for immediate communication throughout the entire business day. Employees on a remote work assignment who are not available for work on that day must seek approval for paid leave. Once a departmental schedule is approved and to ensure consistency, employees may not swap or change days without Presidential authorization (see sample schedules Appendix B).
- (7) **Mandatory On-Campus Schedule.** All employees must be present on campus during the first three weeks of the fall and spring semesters and the last two weeks of each semester.

BMCC has also established online software platforms to conduct business, including Zoom, Microsoft Teams, Epicenter, Empower, and Centillion.

Departments should have weekly office meetings to ensure effective teamwork and communication. In addition, remote work employees must be immediately available for students, colleagues, and external vendors as if they were performing work in the office.

 - b. When an employee takes partial time off for an appointment and returning to the worksite would be an inefficient use of time.
 - c. Where an employee must be absent from the worksite but can perform work remotely.
