

Bay Mills Community College is recruiting for **Technical Adjunct Instructors** for the PACE program. PACE is a Pre-Apprenticeship Center of Excellence at the Great Lakes Composites Institute that provides skill development and hands on training for the advanced manufacturing trade. Adjunct instructors are part-time employees of BMCC.

Master's Degree in Engineering (Mechanical, Industrial systems or Manufacturing concentration) is preferred, but will consider any combination of post-secondary education and professional experience (10 years minimum) within the automotive, energy, construction, aerospace, consumer and other related industry sectors. Advanced manufacturing knowledge in key areas: Material science (metals, ceramics, polymers and composites); Additive and subtractive manufacturing with rapid prototyping focus; Fabrication methods utilizing automation, welding, bonding and fastening; Quality, metrology, reverse engineering and material testing; Virtual design tools including CAD, CAE, CAM and CIM.

To apply, please send cover letter, resume, unofficial copies of ALL academic transcripts, and tribal identification (if claiming preference) to [swalden@bmcc.edu](mailto:swalden@bmcc.edu) by **November 26 at 4:30 p.m.**

Email submissions are preferred; physical address: BMCC, Attention: Human Resources, 12214 W. Lakeshore Drive, Brimley, MI 49715. Full position descriptions are available upon request. Visit <https://greatlakescompositesinstitute.com/> for more information.

*In accordance with the Clery Act, Bay Mills Community College's Annual Security Report is available at the Receptionist's desk in the Administration Building or the Accounting Department upon request. This document provides critical safety information, such as emergency response and preparedness, crime prevention, crime reporting, and timely warnings. This report also includes crime statistics for the past three years.*
