Great Lakes Native American Studies is committed to examining the contemporary and past experiences and life ways of the first Americans from an Anishinaabe perspective. The curriculum is designed to provide a study of the Anishinaabek from a holistic and humanistic viewpoint by not only focusing upon our historical and contemporary life, but our language and culture as well. Courses are designed for both Native American and non-Native American students so they can better understand the similarities and differences within our respective societies with the goal of achieving better communications and relations.
